# CHAIRMAN'S STATEMENT

Dear Shareholders,

On behalf of the board of Directors (the "**Board**") of the Company, it is my pleasure to present this annual report and the audited consolidated financial statements of the Company and its subsidiaries (collectively referred to as the "**Group**") for the year ended 31 March 2020 to you.

## A YEAR IN REVIEW

In 2019, the sales momentum and customer spending sentiment in Hong Kong was adversely affected by the US-China Trade War and the outbreak of local social incidents. The Group continued to face high operating costs base from rental expenses, staff costs and costs of inventories as well as intense competition in the industry. Nevertheless, the Group, as one of the pioneers in the medical skin care industry in Hong Kong, would make the best use of our advantages and continue to seek opportunities to grow.

During the year under review, revenue of the Group amounted to HK\$48.0 million, representing a decrease of 6.6% from HK\$51.4 million of last corresponding year. The Group's net loss attributable to the owners of the Company decreased by 41.8% from HK\$5.5 million of last corresponding year to HK\$3.2 million. Basic loss per share for the period was HK0.67 cent, representing a decrease of approximately 40.7% from that of HK1.13 cent for the last corresponding year.

In recent months, the outbreak of the COVID-19 virus in Hong Kong has further dampened the Hong Kong economy and weakened clients' desire or willingness to undergo medical skin care treatments as a result of the promotion of social distancing measures which in turn adversely affected the revenue of the Group. Moreover, as a measure to control the spread of the COVID-19 virus, the Hong Kong government announced and implemented on 8 April 2020 restrictions on public gatherings and ordered entertainment venue closures, as well as suspending the operation of beauty parlours for 28 days from 10 April to 7 May 2020. Despite the fact that the Group's business mainly focuses on medical procedures and medical treatments performed by doctor-operated clinics, certain non-medical beautifying services were affected. In view of the prioritization of the safety of both our clients and employees, our centres have taken preventive measures to promote a safe and hygienic environment for clients and minimise the risk of contracting and spreading the COVID-19 virus. To cope with the unfavourable changes in economic and business environment, the Group is now providing consultation services through video-conference and offering delivery services for its skincare and medical products.

## OUTLOOK

Looking forward to 2020, in anticipation of a prolonged virus outbreak and potential local social unrest, the outlook of Hong Kong's economy, especially the retail sales sector, is not optimistic. We will therefore remain cautious on our business strategy. Nevertheless, with the growing emphasis on a person's physical appearance in the society, we are still prudently optimistic about the Group's performance in the future. We believe the Group has successfully established a reputation for being a trustworthy, reliable and quality provider of skin care services. We attribute our success to our professionalism in the delivery of services, which includes prioritising safety and well-being of our clients. To cope with the challenges ahead, the Group will continue to concentrate on exploring and launching new types of services and products that we offer; growing the presence of our existing business and identifying new business opportunities, in order to deliver value to both our clients and the shareholders of the Company (the "**Shareholders**").

# CHAIRMAN'S STATEMENT

## APPRECIATION

On behalf of the Board, I wish to take this opportunity to express my sincere gratitude to the Shareholders, business partners, suppliers and clients for their continued support to the Group. I would also like to express my heartfelt appreciation to the management and the staff for their diligence and valuable contribution throughout the year. In the future, we will thrive continuously to expand our business and use our best endeavor to provide the highest quality medical skin care services.

**Dr. Kong Kwok Leung**

*Chairman*

# MANAGEMENT DISCUSSION AND ANALYSIS

## BUSINESS REVIEW

The Group is a medical skin care service provider in Hong Kong. Currently, the Group operates two “Medicskin” branded medical skin care centres and one anti-aging centre, at the prime locations in Hong Kong, which primarily focus on the treatment of skin diseases and problems and/or the improvement of appearance of clients.

The Group provides services to clients for the treatment of, inter alia, skin diseases and problems such as acne, pigmentation, rosacea, dermatitis, eczema and warts, as well as for the improvement of appearance through, inter alia, skin rejuvenation, facial sculpturing and body contouring treatments, treatments of acne scars and enlarged pores, removal of undesirable naevi, and hair removal. These are achieved through the provision of consultation services (“**Consultation Service**”), prescription and dispensing of medication and/or skincare products including sale of skin care products (“**Prescription and Dispensing Service**”) and the provision of medical skin care treatments (“**Treatment Service**”).

For the year ended 31 March 2020, the revenue of the Group decreased by approximately HK\$3.4 million, or 6.6%, to approximately HK\$48.0 million, when compared to the year ended 31 March 2019. The revenue of Consultation Service, Prescription and Dispensing Service and Treatment Service amounted to approximately HK\$1.4 million, HK\$14.6 million and HK\$32.0 million which accounted for approximately 3.1%, 30.4%, and 66.5% of the total revenue of the Group, respectively.

More than half of the Group’s revenue was derived from Treatment Service, which typically involves the injection of Botulinum Toxin Type A and hyaluronic acid, cauterisation, thread lifting and treatments with the use of devices deploying technologies such as laser, radiofrequency and intense focused ultrasound. Most of the Treatment Service was performed by our doctors, with approximately 75.0% of the revenue from Treatment Service generated from treatments performed by our doctors.

The Group recorded a loss attributable to owners of the Company of approximately HK\$3.2 million for the year ended 31 March 2020, representing a decrease of approximately 41.8% from that of approximately HK\$5.5 million for the year ended 31 March 2019. The loss of the last corresponding year was mainly attributable to the effect of the initial startup expenses and additional costs of approximately HK\$4.4 million incurred by the Group on the development of its anti-aging centre located in Tsim Sha Tsui which commenced formal operation in June 2018. Basic loss per share for the period was HK0.67 cent, representing a decrease of approximately 40.7% from that of HK1.13 cent for the last corresponding year.

# MANAGEMENT DISCUSSION AND ANALYSIS

## OUTLOOK

The Group will continue to keep abreast of the latest industry knowledge in order to offer the most suitable and updated services to our clients. The Group performs on a regular basis market research on the development of, and evaluate the effects of the latest products, skills and treatment devices and technology in the market. We believe that the introduction of new types of services and products is one of the driving forces for the growth of the Group's business and is a significant way to maintain the Group's competitiveness and its forefront position in the industry.

It is expected that the Group will continue to face the adverse impact from the COVID-19 pandemic in the months ahead. Leveraging on a healthy balance sheet, an established customer base and renowned reputation in the industry, and our continued efforts in maximising revenue whilst improving operating efficiency, the Directors believe that the Group is well prepared to weather the anticipated economic downturn and is cautiously confident about its development in the future. The Group will continue to use its best endeavours to provide the highest quality medical skin care services and products to its clients and strengthening its market position so as to grow its brand and business and to maximise returns for its investors.

## FINANCIAL REVIEW

### Revenue

The Group's revenue decreased by approximately HK\$3.4 million, or 6.6%, from approximately HK\$51.4 million for the year ended 31 March 2019 to approximately HK\$48.0 million for the year ended 31 March 2020. The decrease was primarily attributable to the decrease in the number of clients served by the Group and the decrease in the number of visits by our clients due to the outbreak of the COVID-19 virus in Hong Kong.

### Other income, gains and losses

Net other income and gains increased by approximately HK\$0.3 million, or 75.0%, from approximately HK\$0.4 million for the year ended 31 March 2019 to approximately HK\$0.7 million for the year ended 31 March 2020. The increase was primarily attributable to the increase in bank interest income.

### Inventories used

The Group's cost of inventories used was approximately HK\$8.8 million and HK\$7.7 million for the years ended 31 March 2020 and 2019, respectively, representing 18.4% and 15.0% of the revenue for the respective years. The increase was primarily attributable to the increase in allowance made for slow moving skin care products of approximately HK\$1.2 million during the current year.

### Staff costs

Staff costs decreased by approximately HK\$2.4 million, or 9.3%, from approximately HK\$25.9 million for the year ended 31 March 2019 to approximately HK\$23.5 million for the year ended 31 March 2020. The decrease was primarily attributable to the decrease in performance related incentive payments paid to doctors due to decline in revenue generated by doctors during the year.

### Depreciation of right-of-use assets

Depreciation of right-of-use assets increased by approximately HK\$7.6 million. The increase was primarily attributable to the adoption of HKFRS 16, which came into effect on 1 April 2019. Correspondingly, there was a similar decrease in property lease rentals under other expenses.

# MANAGEMENT DISCUSSION AND ANALYSIS

## Depreciation of property, plant and equipment

Depreciation of property, plant and equipment decreased by approximately HK\$1.8 million, or 39.1%, from approximately HK\$4.6 million for the year ended 31 March 2019 to approximately HK\$2.8 million for the year ended 31 March 2020. The decrease was primarily attributable to the disposal of Golden Dickson (HK) Limited (“**Golden Dickson**”), a property holding company and wholly-owned subsidiary of the Company, which was completed on 31 May 2019.

## Other expenses

Other expenses decreased by approximately HK\$12.0 million, or 53.6%, from approximately HK\$22.4 million for the year ended 31 March 2019 to approximately HK\$10.4 million for the year ended 31 March 2020. The decrease was primarily attributable to (i) the decrease in property lease rentals due to the adoption of HKFRS 16 of approximately HK\$6.7 million, and (ii) the decrease in marketing expenses (including endorsement fee) of approximately HK\$3.0 million of the anti-aging centre which commenced operation in June 2018.

## Income tax expense

Income tax expense remained stable at approximately HK\$0.1 million and HK\$0.2 million for the years ended 31 March 2020 and 2019, respectively.

## Loss for the year

As a result of the foregoing, the Group recorded a loss attributable to owners of the Company for the year ended 31 March 2020 of approximately HK\$3.2 million, representing a decrease of approximately 41.8% from that of approximately HK\$5.5 million for the year ended 31 March 2019.

## DIVIDENDS

Details of the dividends declared and distributed by the Company during the year ended 31 March 2020 are set out in note 14 to the consolidated financial statements.

No dividend was proposed for the Shareholders in respect of the year ended 31 March 2020.

As far as the Company is aware, as at the date of this report, there was no arrangement under which any Shareholder has waived or agreed to waive any dividend proposed to be distributed for the year ended 31 March 2020.

## CAPITAL STRUCTURE, LIQUIDITY AND FINANCIAL RESOURCES

The capital of the Group only comprises ordinary shares.

The total equity of the Group as at 31 March 2020 was approximately HK\$30.4 million (2019: HK\$55.1 million). The Group generally financed its operation with internally generated cash flows. The Group had bank balances and cash of approximately HK\$42.9 million as at 31 March 2020 (2019: HK\$15.9 million), with no external borrowing (2019: Nil). As at 31 March 2020, the Group had net current assets of approximately HK\$15.8 million (2019: HK\$46.2 million).

Cash generated from operations for the year ended 31 March 2020 was approximately HK\$14.1 million (2019: HK\$5.4 million). With the healthy bank balances and cash on hand, the Group’s liquidity position remained strong and it had sufficient financial resources to fund its future plans and to meet its working capital requirement.

# MANAGEMENT DISCUSSION AND ANALYSIS

## SIGNIFICANT INVESTMENTS HELD BY THE GROUP

During the year ended 31 March 2020, there was no significant investment held by the Group.

## FUTURE PLANS FOR MATERIAL INVESTMENTS AND CAPITAL ASSETS

The Group does not have other plans for material investments and capital assets.

## MATERIAL ACQUISITIONS AND DISPOSALS OF SUBSIDIARIES AND AFFILIATED COMPANIES

Save for the disposal of Golden Dickson on 31 May 2019, the details of which are set out in the announcements issued by the Company dated 29 January and 31 May 2019 and the circular of the Company dated 18 April 2019, the Group did not have any material acquisitions or disposals of subsidiaries and affiliated companies during the year ended 31 March 2020.

## COMMITMENTS

As at 31 March 2020, the Group had capital commitments in respect of contribution to subsidiaries of approximately HK\$0.5 million (2019: HK\$0.2 million).

## CONTINGENT LIABILITIES

As at 31 March 2020, the Group did not have material contingent liabilities.

## CHARGES ON THE GROUP'S ASSETS

Details of charges on the Group's assets are set out in note 20 to the consolidated financial statements.

## FOREIGN EXCHANGE EXPOSURE

The Group carries out its business in Hong Kong and most of its transactions are denominated in Hong Kong dollars. The Group currently does not have significant foreign currency exposure. The management continually assesses and monitors the foreign exchange exposure and, if necessary, may hedge its foreign exchange exposure by entering forward foreign exchange contracts.

## PRINCIPAL RISKS AND UNCERTAINTIES

The Board, as assisted by the audit committee of the Company (the "**Audit Committee**"), oversees the Group's internal control and risk management system, and conducts periodic reviews of such system to ensure good corporate governance practice. The supervision process and outcome of the latest review is set out in more detail in the section headed "Internal Control and Risk Management" in corporate governance report in this report (the "**Corporate Governance Report**"). The following is a discussion of the principal risks and uncertainties facing the Group. The Board meets periodically to discuss these risks, and where appropriate, will monitor the situation closely and adopt any necessary risk mitigation measures.

# MANAGEMENT DISCUSSION AND ANALYSIS

## **Business risk**

The Group's business is dependent on its ability to attract and retain skilled registered medical practitioners and other competent skin care professionals. The Group's ability to provide its services is reliant on the services of these professionals. The ability to attract and retain them is dependent on several factors such as the Group's reputation, financial remuneration and job satisfaction. In the event that the Group is unable to find suitable and timely replacements should a significant number of the registered medical practitioners resign, our financial position and results, business operations as well as future growth and prospects may be adversely affected. The number of registered medical practitioners with necessary experience and qualifications is limited in the market and the Group is competing for suitable candidates with other medical skin care services providers. We may not be able to attract and retain sufficient suitable registered medical practitioners to enter into or maintain cooperative agreement or employment contract with the Group to keep pace with the growth of the Group.

## **Industry risk**

The medical skin care industry is sensitive to negative media reports or allegations, which may affect consumer confidence, reputation and market perception of the industry. The industry is also subject to rapidly changing market trends and intense competition amongst different players, including both medical skin care service providers and beauty parlours without medical staff. This may materially and adversely affect the Group's business performance. To maintain competitiveness, our doctors seek to keep abreast of the latest and most suitable treatment products and technology available.

## **Regulatory and political risk**

The Hong Kong government has been reviewing existing laws and regulations which may affect compliance standards of certain skin care procedures, such as those carried out by the Group. However, we are committed to health and safety and most of the Treatment Service was only performed by doctors.

Our operations are based in Hong Kong and are vulnerable to economic, social and political conditions, such as social unrest or civil disturbance, especially those which may disrupt our clients' and/or staff's access to our centres and in turn affect our business performance.

## **Economy risk**

The growth in revenue from the Group's operations is highly dependent on the sustainable growth of consumer spending on medical skin care services and products. However, there is no assurance that the local economy can sustain a stable growth in consumer spending. Moreover, if the local economy slows down, it is highly likely that consumer demand and spending on medical skin care services and products may be reduced. Any continued economic slowdown or recession may result in a decrease in consumer spending in relation to medical skin care services and products, and may lead to a material adverse effect upon the Group's business and results of operations.

## **Reputation risk**

The Group's success depends to a significant extent on the recognition of the Group's brand and reputation in the medical skin care services industry as a reliable services provider. Any litigation claims or complaints from the Group's clients in relation to the quality of services or products provided by the Group's service centres may adversely affect the reputation and image of the Group, and may in turn, materially and adversely affect the demand for the Group's services.

# MANAGEMENT DISCUSSION AND ANALYSIS

## **Severe communicable and uncontrollable disease**

As a substantial part of the Group's revenue is derived from clients in Hong Kong which is in close proximity to China, any outbreak of severe communicable disease in Hong Kong or China may have an adverse effect on the economic conditions and consumer environment in Hong Kong and our future growth and overall financial position will be adversely affected.

## **Financial risk**

### ***Credit risk***

To minimise credit risk, the Group has monitoring procedures to ensure there is follow-up action to recover overdue debts. The Group also reviews the recoverable amount of each individual debt at the end of each reporting period to ensure that adequate impairment losses are made for irrecoverable amounts.

### ***Liquidity risk***

The Group monitors and maintains a level of cash and cash equivalents which it deems adequate to finance the Group's operations and mitigate the effects of cash flow fluctuations. As at 31 March 2020 and 2019, the Group had no external borrowing.

### ***Foreign currency risk***

The Group is exposed to foreign currency risk related primarily to cash and cash equivalents that are denominated in a currency other than the functional currency of the operation to which they relate. The currencies giving rise to this risk are primarily RMB. The Group does not hold any derivative financial instruments for trading purposes or to hedge against fluctuations in foreign exchange rates.

### ***Interest risk***

The Group is exposed to cash flow interest rate risk in relation to floating rate bank balances. It does not currently have any interest rate hedging policy, but closely monitors its interest rate risk exposure and may consider hedging market changes.

## **EMPLOYEES AND REMUNERATION POLICIES**

As at 31 March 2020, the Group employed a total of 36 full-time and 13 part-time employees (2019: 43 full-time and 9 part-time employees). The staff costs, including Directors' emoluments, of the Group were approximately HK\$23.5 million for the year ended 31 March 2020 (2019: HK\$25.9 million). Remuneration is determined with reference to factors such as comparable market salaries and the performance, time commitment and responsibilities of each individual. Employees are provided with relevant in-house and/or external trainings from time to time. In addition to a basic salary, year-end bonuses are offered to those staff with outstanding performance to attract and retain eligible employees to contribute to the Group. The Company has adopted a share option scheme (the "**Share Option Scheme**") on 3 December 2014 under which the Company may grant share options to eligible employees for subscribing shares of the Company (the "**Share(s)**").

# REPORT OF THE DIRECTORS

The Directors submit their report together with the audited consolidated financial statements of the Group for the year ended 31 March 2020.

## PRINCIPAL ACTIVITIES AND BUSINESS REVIEW

The Company is an investment holding company. Details of the principal activities of its subsidiaries are set out in note 35 to the consolidated financial statements.

Details of the business review, including analysis of the Group's performance using financial key performance indicators, principal risks and uncertainties faced by the Group and an indication of likely future developments in the Group's business are set out in the Chairman's Statement and Management Discussion and Analysis on pages 4 to 11.

## Environmental policies and performance

The Group is committed to the long term sustainability of the environment and communities in which it engages. The Group strives to minimise its impact on the environment by reducing its use of electricity and water and encouraging the recycling of office supplies and other materials. The Group has complied with all relevant laws and regulations regarding environmental protection, health and safety, workplace conditions and employment.

## Compliance with the laws and regulations

The Group recognises the importance of compliance with regulatory requirements and the risks of non-compliance with the applicable laws and regulations. During the year ended 31 March 2020 and up to the date of this report, the Group has complied in all material respects with the relevant laws and regulations that have a significant impact on the business and operation of the Group. There was no material breach or non-compliance with the applicable laws and regulations by the Group for the year ended 31 March 2020 and up to the date of this report.

## Relationship with employees, clients, suppliers and other stakeholders

The Group understands the success of the Group's business depends on the support from its key stakeholders, including employees, clients, suppliers, banks, regulators and Shareholders. During the year ended 31 March 2020, there were no material and significant disputes between the Group and its key stakeholders. The Group will continue to ensure effective communication and maintain good relationship with each of its key stakeholders.

## RESULTS AND APPROPRIATIONS

The results of the Group for the year ended 31 March 2020 are set out in the consolidated statement of profit or loss and other comprehensive income on page 52.

No dividend was proposed for the Shareholders in respect of the year ended 31 March 2020.

## ANNUAL GENERAL MEETING

The annual general meeting of the Company for the year ended 31 March 2020 (the "AGM") will be held on Friday, 25 September 2020. A notice convening the meeting will be issued and sent to the Shareholders in due course.

## CLOSURE OF REGISTER OF MEMBERS

For determining the entitlement to attend and vote at the AGM, the register of members of the Company will be closed from Tuesday, 22 September 2020 to Friday, 25 September 2020, both dates inclusive, during which period no transfer of Shares can be registered. In order to be eligible to attend and vote at the AGM, all transfers accompanied by the relevant share certificates must be lodged with the Company's branch share registrar and transfer office in Hong Kong, Tricor Investor Services Limited, at Level 54, Hopewell Centre, 183 Queen's Road East, Hong Kong for registration not later than 4:30 p.m on Monday, 21 September 2020.

# REPORT OF THE DIRECTORS

## FINANCIAL SUMMARY

A summary of the published results, assets and liabilities of the Group for the last five financial years is set out on page 116. The summary does not form part of the audited consolidated financial statements.

## RESERVES

Movements in the reserves of the Group and the Company during the year are set out in the consolidated statement of changes in equity on page 55 and on page 115, respectively.

## DIRECTORS' SERVICE CONTRACTS

Each of the executive Directors has entered into a service agreement with the Company for an initial term of three years commencing from the date of the Listing (and, for Ms. Tsui Kan and Ms. Sin Chui Pik Christine, commencing from 1 March 2018 and 1 January 2017, respectively) and continuing thereafter until terminated by either party by giving not less than three months' notice in writing to the other.

Each of the independent non-executive Directors has entered into a service agreement with the Company for a term of three years commencing from the date of the Listing, provided that either the Company or the independent non-executive Directors may terminate such appointment at any time by giving at least three months' notice in writing to the other.

Save as aforesaid, none of the Directors proposed for re-election at the forthcoming AGM has a service contract with the Company or any of its subsidiaries which is not determinable by the Company within one year without payment of compensation (other than statutory compensation).

There are no directors' service contracts that are exempt under Rule 17.91 of the GEM Listing Rules.

# REPORT OF THE DIRECTORS

## DIRECTORS' INTERESTS IN CONTRACTS

Save as disclosed in note 34 to the consolidated financial statements and those exempted from the reporting, annual review, announcement and independent Shareholders' approval requirements under the GEM Listing Rules, no contract of significance to the business of the Group to which the Company, its holding companies, its subsidiaries, or its controlling Shareholders was a party subsisted at the end of the year or at any time during the year ended 31 March 2020, and no Directors or any entity connected with any Director are or were materially interested either directly or indirectly in any such contract.

## INDEPENDENT NON-EXECUTIVE DIRECTORS

The Company has received, from each of the independent non-executive Directors, an annual confirmation of his independence pursuant to Rule 5.09 under the GEM Listing Rules. The Company considers all of the independent non-executive Directors are independent.

## MANAGEMENT CONTRACTS

No contracts concerning the management and administration of the whole or any substantial part of the business of the Group were entered into or existed during the year ended 31 March 2020.

## PERMITTED INDEMNITY PROVISION

A permitted indemnity provision for the benefit of the Directors is currently in force and was in force during the year ended 31 March 2020. The Company has arranged for appropriate insurance cover for Directors' and officers' liabilities in respect of legal actions against its Directors and senior management arising out of corporate activities.

## EMOLUMENT POLICY

We have established a remuneration committee (the "**Remuneration Committee**") in compliance with the GEM Listing Rules. The primary duties of the Remuneration Committee are to review and make recommendations to the Board on the remuneration policy and other remuneration related matters, including benefits-in-kind and other compensation payable to the Directors and senior management, after consultation with the chairman and/or chief executive officer of the Company.

Under the remuneration policy of the Company, the Remuneration Committee will consider factors such as corporate and individual performance, salaries paid by comparable companies, time commitment, responsibilities and employment conditions elsewhere in the Group in assessing the amount of remuneration payable to the Directors and senior management.

# REPORT OF THE DIRECTORS

## NON-COMPETITION UNDERTAKINGS

Pursuant to the deed of non-competition dated 11 December 2014, each of Dr. Kong Kwok Leung (“**Dr. Kong**”) and Topline Worldwide Limited (“**Topline**”), a company wholly-owned by Dr. Kong, has jointly and severally agreed and undertaken with the Company (for the benefit of itself and each of its subsidiaries), inter alia, that with effect from the date of the deed of non-competition until the earlier of the date on which Dr. Kong and Topline cease to be controlling Shareholders of the Company and the date on which the Shares cease to be listed on the Stock Exchange, he/ it will not and will procure that none of his/its associates (other than the Group) will, on its own account or with each other or in conjunction with or on behalf of any person, firm or company, carry on or be engaged in, or be interested in, directly or indirectly, whether as a shareholder (other than being a director or a shareholder of the Company or its subsidiaries), director, employee or otherwise, in any business that competes or may compete, directly or indirectly, with any businesses as may from time to time be carried on by the Group in Hong Kong (other than as a holder of not more than 5% of the issued Shares or stock of any class or debentures of any company listed on any recognised stock exchange).

## COMPETING INTERESTS

The Directors are not aware of any business or interest of the Directors nor the controlling Shareholders of the Company nor any of their respective close associates (as defined under the GEM Listing Rules) that competes or may compete, either directly or indirectly, with the business of the Group, or of any other conflicts of interest which any such person has or may have with the Group during the year ended 31 March 2020.

		(note c)	
Mr. Ji (note b)	Interest in a controlled corporation	80,000,000	16.47%
		(note c)	

Notes:

- The entire issued share capital of Topline is beneficially owned by Dr. Kong. Therefore, Dr. Kong is deemed to be interested in all the Shares of the Company held by Topline.
- Rich Unicorn, a company incorporated in the British Virgin Islands with limited liability, is beneficially owned by Fullshare Holdings Limited ("Fullshare") whose issued shares are listed on the Stock Exchange (stock code: 607). Fullshare is in turn owned as to 43.31% by Magnolia Wealth International Limited ("Magnolia Wealth"), a company incorporated in the British Virgin Islands with limited liability, whose entire issued share capital is beneficially owned by Mr. Ji Changqun ("Mr. Ji"). In addition, Mr. Ji holds 4.62% of Fullshare directly as the beneficial owner. Therefore, Fullshare, Magnolia Wealth and Mr. Ji are deemed to be interested in all the shares held by Rich Unicorn.
- The Company has bought back 80,000,000 Shares held by Rich Unicorn at HK\$0.125 per share on 9 June 2020 through an off-market repurchase. All the Buy-back Shares have been cancelled on 16 June 2020. Details of the share buy-back are set out in the Company's announcement dated 19 March 2020 and the Company's circular dated 8 May 2020 respectively.

Save as disclosed above, as at 31 March 2020, no other interests or short positions in the Shares or underlying Shares of the Company were recorded in the register required to be kept by the Company under Section 336 of the SFO.

# REPORT OF THE DIRECTORS

## SHARE OPTION SCHEME

The Company adopted the Share Option Scheme on 3 December 2014 to provide incentive and/or to reward eligible persons for their contribution to, and continuing efforts to promote the interest of, the Group. The terms of the Share Option Scheme are in accordance with the provisions of Chapter 23 of the GEM Listing Rules. The following is a summary of the principal terms of the Share Option Scheme:

### (a) Purpose of the Share Option Scheme

The purpose of the Share Option Scheme is to provide incentive and/or to reward eligible persons for their contribution to, and continuing efforts to promote the interest of, the Group.

### (b) Who may join

Subject to the terms of the Share Option Scheme, the Board shall be entitled to make an offer to any employee (whether full time or part-time employee) of the Company and its subsidiaries; any executive Directors and non-executive Directors (including independent non-executive Directors) of the Company and any of its subsidiaries; and any person or entity acting in their capacities as advisers or consultants or other contractors or business partners of the Group.

### (c) Maximum number of Shares

The total number of Shares in respect of which options may be granted under the Share Option Scheme and any other share options schemes of the Company shall not exceed 10% of the total number of Shares in issue at the Listing date, which is 40,000,000 Shares, being 9.9% of the issued share capital of the Company as at the date of this annual report, unless the Company seeks the approval of the Shareholders in general meeting for refreshing the 10% limit under the Share Option Scheme.

### (d) Maximum entitlement of each eligible person

No option shall be granted to any eligible person if any further grant of options would result in the Shares issued and to be issued upon exercise of all options granted and to be granted to such person (including exercised, cancelled and outstanding options) in the 12-month period up to and including such further grant would exceed 1% of the total number of Shares in issue.

### (e) Time of acceptance and exercise of an option

An offer of grant of an option may be accepted by an eligible person within the date as specified in the offer issued by the Company, being a date not later than 21 days after (i) the date on which the offer was issued, or (ii) the date on which the conditions (if any) for the offer are satisfied, provided that such date shall not be more than 10 years after the date of adoption of the Share Option Scheme.

A consideration of HK\$1 is payable for each acceptance of grant of option(s) and shall be paid upon acceptance of grant of option(s). Such consideration shall generally not be refundable.

Subject to the other provisions of the Share Option Scheme, an option may be exercised in whole or in part by the grantee (or his personal representatives) at any time before the expiry of the period to be determined and notified by the Board to the grantee which in any event shall not be longer than 10 years commencing on the offer date and expiring on the last day of such 10-year period subject to the provisions for early termination as contained in the Share Option Scheme and provided that the Board may determine the minimum period for which the option has to be held or other restrictions before the exercise of the subscription right attaching thereto.

## REPORT OF THE DIRECTORS

### (f) Subscription price for Shares

The subscription price of a Share in respect of any particular option granted under the Share Option Scheme shall be a price determined by the Board and notified to an eligible person, and shall be at least the highest of:

- (1) the closing price of the Shares as stated in the Stock Exchange's daily quotations sheet on the offer date, which must be a business day;
- (2) the average of the closing price of the Shares as stated in the Stock Exchange's daily quotation sheets for the five business days immediately preceding the offer date; and
- (3) the nominal value of a Share.

### (g) Period of the Share Option Scheme

Subject to earlier termination by the Company in general meeting or the Board, the Share Option Scheme shall be valid and effective for a period of 10 years commencing on the date of adoption of the Share Option Scheme, after which period no further option shall be granted. Subject to the above, in all other respects, in particular, in respect of options remaining outstanding on the expiration of the 10-year period referred to in this paragraph, the provisions of the Share Option Scheme shall remain in full force and effect.

No share options were exercised, cancelled or lapsed during the year ended 31 March 2020 (2019: Nil). As at 31 March 2020, there were 4,000,000 (2019: 4,000,000) outstanding share options in aggregate, of which 3,300,000 (2019: 1,300,000) share options have vested and are issuable for 3,300,000 (2019: 1,300,000) ordinary shares of the Company under the Share Option Scheme.

## AUDIT COMMITTEE

The Company had established the Audit Committee on 3 December 2014 with written terms of reference in compliance with the GEM Listing Rules. Details of the role and work performed by the committee are set out in the Corporate Governance Report.

The Audit Committee has reviewed the audited consolidated financial statements of the Group for the year ended 31 March 2020 and is of the view that such results complied with the applicable accounting standards, the GEM Listing Rules and other applicable legal requirements, and that adequate disclosure has been made.

## RETIREMENT BENEFIT SCHEMES

Other than operating a Mandatory Provident Fund Scheme under the Mandatory Provident Fund Schemes Ordinance (Cap. 485), the Group has not operated any other retirement benefit schemes for its employees. Particulars of the retirement benefit schemes are set out in note 29 to the consolidated financial statements.

## RELATED PARTY TRANSACTIONS

Details of related party transactions of the Group during the year ended 31 March 2020 are set out in note 34 to the consolidated financial statements. Such transactions were fully exempt from the reporting, announcement, annual review and independent Shareholders' approval requirements under Chapter 20 of the GEM Listing Rules.

# REPORT OF THE DIRECTORS

## EQUITY-LINKED AGREEMENT

Save as disclosed in the section headed "Share Option Scheme" above, no equity-linked agreements were entered into during the year ended 31 March 2020 or subsisted as at 31 March 2020.

## SUFFICIENCY OF PUBLIC FLOAT

As at the date of this report, based on the information that is publicly available to the Company and to the best knowledge of the Directors, the Directors confirm that the Company maintained the amount of public float as required under the GEM Listing Rules.

## EVENTS AFTER THE REPORTING PERIOD

(a) On 19 March 2020, the Company entered into the Share Buy-back Agreement with Rich Unicorn pursuant to which Rich Unicorn has agreed to sell, and the Company has agreed to repurchase for cancellation, a total of 80,000,000 Shares at the total consideration of HK\$10,000,000, equivalent to HK\$0.125 per share. The Share Buy-back Agreement and the share buy-back were approved by independent Shareholders at the extraordinary general meeting of the Company held on 5 June 2020. All conditions under the Share Buy-back Agreement have been fulfilled and completion took place on 9 June 2020. The Buy-back Shares have been cancelled by the Company on 16 June 2020.

As Rich Unicorn is a substantial shareholder of the Company and thus a connected person of the Company under the GEM Listing Rules, the share buy-back under the Share Buy-back Agreement constitutes a connected transaction for the Company under the GEM Listing Rules. Details of the share buy-back are set out in the Company's announcement dated 19 March 2020 and the Company's circular dated 8 May 2020 respectively.

(b) On 15 May 2020, the Group entered into a sale and purchase agreement with an independent third party, pursuant to which the Group has agreed to sell its 51% equity interest in Success Guide Limited, the holding company of MS Medicspa Limited which engages in the provision of beauty spa services, and the independent third party has agreed to acquire the same for a consideration of HK\$60,000. The transaction was completed on 1 June 2020.

(c) Due to the outbreak of the COVID-19 virus in Hong Kong, as a measure to control the spread of the COVID-19 virus, the Hong Kong government announced and implemented on 8 April 2020 restrictions on public gatherings and ordered entertainment venue closures, as well as suspending the operation of beauty parlours for 28 days from 10 April to 7 May 2020. Despite the fact that the Group's business mainly focuses on medical procedures and medical treatments performed by doctor-operated clinics, certain non-medical beautifying services were affected. It is expected that the business environment will be challenging in the near term until the spread of the COVID-19 virus is effectively contained.

## AUDITOR

Messrs. Moore Stephens CPA Limited will retire, and being eligible, offer themselves for re-appointment at the forthcoming AGM. A resolution for their re-appointment as auditor of the Company will be proposed at the forthcoming AGM. The consolidated financial statements for the year ended 31 March 2020 have been audited by Moore Stephens CPA Limited.

By Order of the Board  
**Dr. Kong Kwok Leung**  
*Chairman and Executive Director*

# CORPORATE GOVERNANCE REPORT

## CORPORATE GOVERNANCE PRACTICES

The Board is committed to maintaining a good corporate governance standard, with the chairman being primarily responsible for establishing relevant practices and procedures. The Board believes that a good corporate governance standard will provide a framework for the Group to formulate its business strategies and policies, and manage the associated risks through effective internal control procedures. It will also enhance the transparency of the Group and strengthen accountability to the Shareholders and creditors. Therefore, the Board has reviewed and will continue to review and improve the Company's corporate governance practices from time to time.

The Company adopted the Corporate Governance Code (the "CG Code") contained in Appendix 15 to the GEM Listing Rules as its own code of corporate governance and, save as disclosed in the section headed "Chairman and Chief Executive" below, the Board is satisfied that the Company had complied with and is not aware of any deviations from the CG Code during the year ended 31 March 2020.

## DIRECTORS' SECURITIES TRANSACTIONS

The Company has adopted a code of conduct regarding securities transactions by the Directors, its employees, and the directors and employees of its subsidiaries and holding companies, who may likely possess inside information on the Company or its securities, on terms no less exacting than the required standard of dealings set out in Rules 5.48 to 5.67 of the GEM Listing Rules. The Company had also made specific enquiry of all the Directors and the Company was not aware of any non-compliance with the required standard of dealings regarding securities transactions by the Directors during the year ended 31 March 2020.

## BOARD OF DIRECTORS

### Board Composition

As at 31 March 2020, the Board comprised of four executive Directors and three independent non-executive Directors. The composition of the Board is as follows:

#### Executive Directors

Dr. Kong (*Chairman and Chief Executive Officer*)

Ms. Tsui Kan

Ms. Kong Chung Wai

Ms. Sin Chui Pik Christine

#### Independent Non-executive Directors

Mr. Chan Cheong Tat

Mr. Lee Ka Lun

Mr. Leung Siu Cheung

# CORPORATE GOVERNANCE REPORT

## Functions, Roles and Responsibilities of the Board

The Board is responsible for leadership and control of the Group and is collectively responsible for promoting the success of the Group by directing and supervising the Group's affairs. The Board focuses on formulating the Group's overall strategies, authorising the development plan and budget; monitoring financial and operating performance; reviewing the effectiveness of the internal control system; supervising and managing management's performance of the Group; and setting the Group's values and standards. The Board delegates the day-to-day management, administration and operation of the Group to the chief executive officer of the Company and senior management. The delegated functions are reviewed by the Board periodically to ensure that they accommodate the needs of the Group. The abovementioned personnel should report back and obtain prior approval from the Board before making any significant decisions or entering into any significant commitments on the Company's behalf, and they may not exceed any authority given to them by resolutions of the Board or the Company.

The independent non-executive Directors bring a wide range of business and financial expertise, experience and independent judgement to the Board, on issues of strategic direction, policies, development, performance and risk management. Through active participation in Board meetings, taking the lead in managing issues involving potential conflict of interests and serving on Board committees, they scrutinise the Company's performance in achieving corporate goals and objectives and monitor performance reporting. By doing so, they are able to contribute positively to the Company's strategy and policies through independent, constructive and informed comments at Board and committee meetings.

Each Director has confirmed that he/she can give sufficient time and attention to the Company's affairs, and has regularly provided information on the number and nature of offices held in public companies or organisations and other significant commitments, including the identity of such companies or organisations and an indication of the time involved.

The Company has arranged appropriate insurance cover for Directors' liabilities in respect of legal actions against them for corporate activities.

## Board/Board Committee Meetings

The Board regularly meets in person or through other electronic means of communication at least four times a year to, among other matters, review past financial and operating performance and discuss the Group's direction and strategy. An agenda and accompanying papers together with all appropriate information are sent to all Directors at least three days before each Board or committee meeting so as to ensure timely access to relevant information. Appropriate notice of at least 14 days for regular Board meetings and reasonable notice for other Board committee meetings are given to all Directors, who are all given an opportunity to attend and include matters in the agenda for discussion. Senior management is invited to join Board meetings to enhance communication between the Board and management; the Board and each Director also have separate and independent access to senior management whenever necessary. The company secretary of the Company (the "**Company Secretary**") takes detailed minutes of the meetings and keeps records of matters discussed and decisions resolved at the meetings, including any concerns raised or dissenting views expressed by Directors, and the voting results of Board meetings fairly reflect Board consensus. Both draft and final versions of the minutes are sent to all Directors for their comments and records respectively, within a reasonable time after each meeting, and such minutes are open for inspection with reasonable advance notice by any Director. Directors are entitled to have access to board papers and related materials, and any queries will be responded to fully.

## CORPORATE GOVERNANCE REPORT

Upon reasonable request to the Board, the Directors can seek independent professional advice in performing their duties at the Company's expense, if necessary. According to the current Board's practice, should a potential conflict of interest involving a substantial Shareholder or Director arise, the matter is discussed in a Board meeting, as opposed to being dealt with by written resolution. Independent non-executive Directors with no conflict of interest should be present at such meetings. When the Board considers any proposal or transaction in which a Director has a conflict of interest, the Director declares his/her interest and abstains from voting.

### Directors' Attendance at Board/Board Committee Meetings

A summary of all Directors' attendance at the Board meetings, Board committee meetings and general meeting held during the year ended 31 March 2020 is set out in the following table:

Name of Director	Number of meetings attended

### CORPORATE GOVERNANCE FUNCTIONS

No corporate governance committee of the Company has been established. In compliance with code provision D.3 of the CG Code, the Board as a whole is responsible for performing the corporate governance duties including: (a) to develop and review the Company's policies and practices on corporate governance; (b) to review and monitor the training and continuous professional development of Directors and senior management; (c) to review and monitor the Company's policies and practices on compliance with legal and regulatory requirements; (d) to develop, review and monitor the code of conduct and compliance manual (if any) applicable to employees and Directors; and (e) to review the Company's compliance with the CG Code and disclosure in the Corporate Governance Report.

# CORPORATE GOVERNANCE REPORT

## CHAIRMAN AND CHIEF EXECUTIVE

In accordance with provision A.2.1 of the CG Code, the roles of chairman and chief executive should be separate and should not be performed by the same individual and their respective responsibilities should be clearly defined in writing. Dr. Kong is the chairman of the Board and the chief executive officer of the Company who is primarily responsible for providing leadership to the Board, overseeing the overall operation of the Group and leading and directing the Group's overall business and development strategies. Dr. Kong also chairs the Board and nomination committee (the "**Nomination Committee**") meetings and briefs the Board members and Nomination Committee members on the issues arising at the respective meetings to ensure that Directors and committee members receive adequate information in a timely manner which is accurate, clear, complete and reliable. He encourages all Directors to make full and active contribution to the Board's affairs and takes the lead to ensure that it acts in the Company's best interest. He aims to ensure constructive relations between executive and non-executive Directors. Being aware of the said deviation from code provision A.2.1, the Board believes that with the support of the management, vesting the roles of both chairman of the Board and the chief executive officer of the Company in Dr. Kong, the founder of the Group, can facilitate the execution of the Group's business strategies and boost effectiveness of its operation. In addition, the Board is also supervised by three independent non-executive Directors. The Board considers that the present structure will not impair the balance of power and authority between the Board and the management of the Group as the Board assumes collective responsibility on the decision-making process of the Company's business strategies and operation. The Directors will meet regularly to consider major matters affecting the operations of the Group.

Code provision A.2.7 of the CG Code requires the chairman of the Board to hold meetings at least annually with the non-executive Directors (including independent non-executive Directors) without the executive Directors present. During the year ended 31 March 2020, four meetings between the chairman of the Board and the non-executive Directors were held. All independent non-executive Directors attended the meetings.

## APPOINTMENT AND RE-ELECTION OF DIRECTORS

Each of the executive Directors has entered into a service agreement with the Company for an initial term of three years commencing from the date of the Listing (and, for Ms. Tsui Kan and Ms. Sin Chui Pik Christine, commencing from 1 March 2018 and 1 January 2017, respectively) and continuing thereafter until terminated by either party by giving not less than three months' notice in writing to the other.

Each of the independent non-executive Directors has entered into a service agreement with the Company for a term of three years commencing from the date of the Listing, provided that either the Company or the independent non-executive Directors may terminate such appointment at any time by giving at least three months' notice in writing to the other.

By virtue of article 16.2 of the articles of association of the Company (the "**Articles of Association**"), the Directors shall have power at any time and from time to time to appoint any person to be a Director, either to fill a casual vacancy or as an addition to the existing Directors. In compliance with the code provision A.4.2 of the CG Code, any Director so appointed shall hold office only until the next general meeting of the Company and shall then be eligible for re-election at that meeting. The Board has delegated the power to the Nomination Committee to make recommendations to the Board on the appointment and re-appointment of Directors. The responsibilities of the Nomination Committee are set out in the sub-heading "Nomination Committee" below. Directors to be appointed will have a formal letter of appointment setting out the key terms and conditions of their appointment.

# CORPORATE GOVERNANCE REPORT

In compliance with the code provision A.4.2 of the CG Code, every Director shall be subject to retirement by rotation at least once every three years. Furthermore, pursuant to article 16.18 of the Articles of Association, at every annual general meeting of the Company one-third of the Directors for the time being shall retire from office by rotation. A retiring Director shall retain office until the close of the meeting at which he/she retires and shall be eligible for reelection thereat.

## DIRECTORS' CONTINUOUS PROFESSIONAL DEVELOPMENT

According to the code provision A.6.5 of the CG Code, all Directors shall participate in continuous professional development to develop and refresh their knowledge and skills to ensure their contribution to the Board remains informed and relevant. The Company would arrange and/or introduce suitable training and information for the Directors to ensure they are fully aware of their responsibilities under statute and common law, the GEM Listing Rules and other applicable legal and regulatory requirements. During the year ended 31 March 2020, the Company had arranged a seminar on the GEM Listing Rules, the Hong Kong Companies Ordinance (Cap. 622) (the "**Companies Ordinance**") and the SFO for the Directors. All Directors attended the seminar.

All Directors, namely Dr. Kong, Ms. Tsui Kan, Ms. Kong Chung Wai, Ms. Sin Chui Pik Christine, Mr. Chan Cheong Tat, Mr. Lee Ka Lun and Mr. Leung Siu Cheung, have confirmed that they had participated in continuous professional development by attending seminars and reading materials during the year ended 31 March 2020, and have provided a record of their training to the Company, in compliance with the code provision A.6.5 of the CG Code.

## BOARD COMMITTEES

The Board has established three committees, namely, the Audit Committee, the Remuneration Committee and the Nomination Committee, to oversee particular aspects of the Company's affairs. All Board committees are established with written terms of reference, which have complied with the CG Code and are available on the Stock Exchange website at [www.hkexnews.hk](http://www.hkexnews.hk) and the Company's website at [www.medicskin.com](http://www.medicskin.com) and are available to Shareholders upon request. The Board committees are provided with sufficient resources to discharge their duties and, upon reasonable request, are able to seek independent professional advice in appropriate circumstances, at the Company's expense. The Board committees will report back to the Board on their decisions or recommendations.

## AUDIT COMMITTEE

The Company had established the Audit Committee on 3 December 2014 with written terms of reference in compliance with the GEM Listing Rules. The primary duties of the Audit Committee are to review and supervise the financial reporting process and internal control system of the Company, make recommendations to the Board on the appointment, reappointment and removal of the external auditor, and review the Company's financial information.

The Audit Committee currently consists of three independent non-executive Directors, namely, Mr. Chan Cheong Tat, Mr. Lee Ka Lun and Mr. Leung Siu Cheung. Mr. Chan Cheong Tat is the chairman of the Audit Committee.

During the year ended 31 March 2020, five meetings of the Audit Committee were held to review and discuss the annual/interim/quarterly results and internal control report of the Group and discuss with the external auditor regarding the audit approach, and the nature and scope of the audit for the year ended 31 March 2020. Two meetings were attended by the Company's external auditor so that the members of the Audit Committee could exchange their views and concerns on the financial reporting process of the Group with the auditors. Details of the attendance of the members of the Audit Committee in the said meetings are set out under the sub-heading "Directors' Attendance at Board/ Board Committee Meetings" above.

## CORPORATE GOVERNANCE REPORT

The Audit Committee has reviewed the consolidated financial statements of the Group for the year ended 31 March 2020 and this report and is of the view that such results complied with the applicable accounting standards, the GEM Listing Rules and other applicable legal requirements, and that adequate disclosure had been made. The Audit Committee has also reviewed the effectiveness of the risk management and internal control systems of the Group, as detailed in the section headed "Internal Control and Risk Management" below.

### REMUNERATION COMMITTEE

The Company had established the Remuneration Committee on 3 December 2014 with written terms of reference in compliance with the GEM Listing Rules.

The primary duties of the Remuneration Committee are to review and make recommendations to the Board on the remuneration policy and other remuneration related matters, including benefits-in-kind and other compensation payable to the Directors and senior management.

The Remuneration Committee currently consists of two executive Directors and three independent non-executive Directors, namely, Dr. Kong, Ms. Sin Chui Pik Christine, Mr. Chan Cheong Tat, Mr. Lee Ka Lun and Mr. Leung Siu Cheung. Mr. Leung Siu Cheung is the chairman of the Remuneration Committee.

During the year ended 31 March 2020, a meeting of the Remuneration Committee was held. The meeting of the Remuneration Committee was held to make recommendations to the Board on the Company's policy and structure for remuneration of the Directors and the senior management and on the establishment of a procedure for developing policy on such remuneration; to assess the performance of and to determine the remuneration packages of all the executive Directors and the senior management; and to make recommendations to the Board on the remuneration of the independent non-executive Directors. Details of the attendance of the members of the Remuneration Committee in the said meeting are set out under the sub-heading "Directors' Attendance at Board/Board Committee Meetings" above.

### NOMINATION COMMITTEE

The Company had established the Nomination Committee on 3 December 2014 with written terms of reference in compliance with the GEM Listing Rules. The primary duty of the Nomination Committee is to make recommendations to the Board regarding the structure, size and composition of the Board and candidates to fill vacancies on the Board.

The Nomination Committee currently consists of two executive Directors and three independent non-executive Directors, namely, Dr. Kong, Ms. Kong Chung Wai, Mr. Chan Cheong Tat, Mr. Lee Ka Lun and Mr. Leung Siu Cheung. Dr. Kong is the chairman of the Nomination Committee.

During the year ended 31 March 2020, a meeting of the Nomination Committee was held. The meeting of the Nomination Committee was held to review the structure and composition of the Board, and to review and make recommendations to the Board on adoption of the Board diversity policy. Details of the attendance of the members of the Nomination Committee in the said meeting are set out under the sub-heading "Directors' Attendance at Board/ Board Committee Meetings" above.

## **Board Nomination Policy**

The Company has adopted a nomination policy in compliance with the CG Code to set out the guidelines to the Nomination Committee to identify individuals suitably qualified to become Board members and make recommendations to the Board on the selection of individuals nominated for directorships with reference to the formulated criteria. The Board is ultimately responsible for selection and appointment of new Directors.

The Board, through the delegation of its authority to the Nomination Committee, has used its best efforts to ensure that Directors appointed to the Board possess the relevant background, experience and knowledge in business, finance and management skills critical to the Group's business to enable the Board to make sound and well considered decisions. Collectively, they have competencies in areas which are relevant and valuable to the Group.

## **Nomination Process**

The Nomination Committee shall assess whether any vacancy on the Board has been created or is expected on a regular basis or as required. The Nomination Committee utilises various methods for identifying director candidates, including recommendations from Board members, management, and professional search firms. All director candidates are evaluated by the Nomination Committee based upon the director qualifications in the Nomination Committee's meetings. While director candidates will be evaluated on the same criteria through review of resume, personal interview and performance of background checks, the Nomination Committee retains the discretion to establish the relative weighting of such criteria, which may vary based on the composition, skill sets, age, gender and experiences of the collective Board rather than on the individual candidate for the purpose of diversity perspectives appropriate to the requirement of the Company's business. The Nomination Committee shall make recommendations for the Board's consideration and approval.

## **Selection Criteria**

The Nomination Committee will take into account whether a candidate has the qualifications, skills, experience and gender diversity that add to and complement the range of skills, experience and background of existing Directors. The Nomination Committee will also consider other factors including personal and professional ethics and integrity of the candidate, proven achievement and competence in the nominee's field and the candidate's ability to exercise sound business judgment, whether the candidate possesses skills that are complementary to those of the existing Board, the candidate's ability to assist and support management and make significant contributions to the Company's success, and such other factors as it may deem are in the best interests of the Company and the Shareholders.

## **Board Diversity Policy**

The Board adopted the Board diversity policy which aims to set out its approach to achieve diversity on the Board. The Company recognises and embraces the benefits of having a diverse Board to enhance the quality of its performance. The Board has in its composition a balance of skills, expertise, qualifications, experience and diversity of perspectives necessary for independent decision making and fulfilling its business needs. The Board will consider a number of aspects when selecting candidates, including but not limited to gender, age, cultural and educational background, professional experience, skills, knowledge and length of service. All Board appointments will ultimately be based on merit and the contribution that the selected candidates will bring to the Board, having due regard for the benefits of diversity on the Board.

## ACCOUNTABILITY AND AUDIT

### Financial Reporting

The Board is responsible for overseeing the preparation of financial statements on a going concern basis, with supporting assumptions or qualifications as necessary, for each financial period with a view to ensuring that such financial statements give a true and fair view of the state of affairs of the Group and of the results and cash flows for the financial year.

Management of the Company has provided such explanation and information to the Board to enable the Board to make an informed assessment of the financial and other information put before the Board for approval. This includes monthly management updates to the Board, with a balanced, understandable and sufficiently detailed assessment of the Company's performance, position and prospects, enabling the Board and each Director to discharge their duties under the GEM Listing Rules.

The Group accounts are prepared in accordance with the GEM Listing Rules, the Companies Ordinance, all relevant statutory requirements and applicable accounting standards. The Group has selected appropriate accounting policies and has applied them consistently based on prudent and reasonable judgements and estimates. The Directors endeavor to ensure a balanced, clear and understandable assessment of the Group's position and prospects in the annual reports, interim reports, quarterly reports, price-sensitive announcements and other disclosures required under the GEM Listing Rules and other regulatory requirements.

The Directors acknowledge their responsibility for the preparation of consolidated financial statements of the Group that give a true and fair view in accordance with Hong Kong Financial Reporting Standards issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA") and the disclosure requirements of the GEM Listing Rules and the Companies Ordinance, and for such internal control as the Directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

The responsibility of the Company's auditor, Messrs. Moore Stephens CPA Limited, is set out in the section headed "Independent Auditor's Report" on pages 48 to 51 of this report.

### Internal Control and Risk Management

The Board is responsible for maintaining a sound and effective internal control system to safeguard the Company's assets and Shareholders' interests. The Group has the Audit Committee to assist the Board by overseeing the audit process and providing independent view on the effectiveness of the financial reporting process and internal control and risk management systems. However, such systems are designed to manage rather than to eliminate the risk of failure to achieve business objectives, and can only provide reasonable and not obsolete assurance against material misstatements or loss.

The Board convened meetings periodically to discuss business risk, financial risk, compliance risks and operation and other risks. The Audit Committee, through the engagement of Shinewing Risk Services Limited ("Shinewing"), the outsourced internal auditor of the Company, has conducted a review of the effectiveness of the risk management and internal control systems of the Group, covering all material controls such as financial, operational and compliance controls and risk management functions. Shinewing has reported to the Audit Committee that they have identified, evaluated and managed risks through: (i) risk identification, (ii) risk analysis, (iii) risk evaluation, (iv) risk treatment and (v) risk monitoring and reporting and considered that the risk management and internal control systems and procedures of the Group, including the adequacy of resources, qualifications and experience of staff of the accounting and financial reporting function, and their training programs and budget, are adequate and effective and have complied with the provisions of the CG Code during the year ended 31 March 2020.

# CORPORATE GOVERNANCE REPORT

The Company will perform ongoing assessment on all material risk factors on a regular basis. In any case, review on risk management and internal control system will be conducted annually.

## Internal Audit

During the year ended 31 March 2020, the Company had engaged Shinewing as the internal auditor of the Group to review the Group's risk management and internal control systems and to give recommendations to make any enhancement. Such review covered material controls, including controls on operation cycle in relation to medical skin care services and skincare products, procurement and payments, inventory management, information technology and corporate governance and did not reveal any significant defects. Shinewing has reported major findings and areas for improvement to the Audit Committee. Relevant recommendations made by Shinewing have been properly followed up by the Group to further enhance its internal control policies, procedures and practices. The Audit Committee reviewed the internal control review report issued by Shinewing on the Group's risk management and internal control systems in respect of the year ended 31 March 2020 and considered that such systems are effective and adequate. The Board assessed the effectiveness of internal control systems by considering the internal control review report and reviews performed by the Audit Committee and concurred the same. The Board is of the view that the internal control measures of the Group are adequately and effectively monitor our business operations for the year ended 31 March 2020.

## Inside Information

The Group conducts its affairs having close regard to the disclosure requirements under the GEM Listing Rules and the SFO. The Group has established procedures to identify and evaluate events or circumstances which potentially involve or constitute inside information and restrict dissemination of such information to a need-to-know basis. The Company's disclosure policies provide the procedures and internal controls for the handling and dissemination of inside information by publication of announcements to the websites of the Stock Exchange and the Company on a timely basis to enable the public, namely the Shareholders, institutional investors, potential investors and other stakeholders of the Company to access the latest information of the Group, unless such information fall within the safe harbours with the SFO. Prior to disclosure, the Board is responsible for ensuring that any inside information relating to the Group is kept strictly confidential. The Group has also designated persons to be responsible for making any necessary announcement in respect of such inside information to ensure consistent and timely disclosure and to respond to external enquiries about the affairs of the Group.

## AUDITOR'S REMUNERATION

The Audit Committee is responsible for making recommendation to the Board on the appointment, reappointment and removal of the external auditor, and to approve the remuneration and terms of engagement of the external auditor, and any questions of its resignation or dismissal.

Messrs. Moore Stephens CPA Limited was appointed by the Board as the auditor of the Company. The remuneration paid or payable to Moore Stephens CPA Limited for services rendered for the year ended 31 March 2020 was as follows:

	<i>HK\$'000</i>
Audit service	410
Non-audit service	
– other service (review of preliminary results announcement)	10

# CORPORATE GOVERNANCE REPORT

## COMPANY SECRETARY

Ms. Sin Chui Pik Christine (“**Ms. Sin**”) was appointed by the Board as the Company Secretary on 23 June 2014. The biographical details of Ms. Sin are set out under the section headed “Biographical Details of Directors and Senior Management” in this report.

The primary duties of the Company Secretary include, but are not limited to, the following: (a) to ensure the Board procedures are followed and that the activities of the Board are carried out efficiently and effectively; (b) to assist the chairman to prepare agendas and Board papers for meetings and disseminate such documents to the Directors and Board committees in a timely manner; (c) to timely disseminate announcements and information relating to the Group; and (d) to maintain formal minutes of the Board meetings and other Board committee meetings.

Ms. Sin has confirmed that she had received no less than 15 hours of relevant professional training for the year ended 31 March 2020, in compliance with Rule 5.15 of the GEM Listing Rules.

## SHAREHOLDERS’ RIGHTS

The general meetings of the Company provide an opportunity for communication between the Shareholders and the Board. An annual general meeting of the Company shall be held in each year and at the place as may be determined by the Board. Each general meeting, other than an annual general meeting, shall be called an extraordinary general meeting (“**EGM**”).

To ensure compliance with the CG Code, the notice of the meeting, the annual report and the circular containing information on the proposed resolutions will be sent to the Shareholders at least 20 clear business days before the annual general meeting. Voting at the forthcoming AGM will be by way of a poll. An explanation of the detailed procedures of conducting a poll will be provided to the Shareholders at the commencement of the AGM to ensure that the Shareholders are familiar with such procedures.

Poll results will be counted by the Company’s Hong Kong branch share registrar and transfer office, Tricor Investor Services Limited, and will be posted on the websites of the Company and of the Stock Exchange on the day the shareholders’ meeting is held. General meetings of the Company provide an opportunity for communication between the Shareholders and the Board. The chairman of the Board as well as the chairmen of the Remuneration Committee, the Nomination Committee and the Audit Committee, or in their absence, other members of the respective committees, are available to answer questions at the Shareholders’ meetings. The Company will also arrange for the external auditor of the Company to attend the annual general meeting to answer relevant questions if necessary.

Separate resolutions are proposed at Shareholders’ meetings on each substantial issue, including the election of individual Directors.

## SHAREHOLDERS COMMUNICATION POLICY

The Company has established a shareholders communication policy to set out the Company’s procedures in providing the Shareholders and the investment community with ready, equal and timely access to balanced and understandable information about the Company, in order to enable the Shareholders to exercise their rights in an informed manner and to allow the Shareholders and the investment community to engage actively with the Company.

# CORPORATE GOVERNANCE REPORT

## **Rights to convene an EGM**

Pursuant to article 12.3 of the Articles of Association, any two or more members holding at the date of the deposit of the requisition not less than one-tenth of the paid-up capital of the Company carrying the right of voting at general meetings of the Company, shall at all times have the right, by written requisition sent to the Company's principal office as set out in the manner below, to require an EGM to be called by the Board for the transaction of any business specified in such requisition.

The written requisition must state the objects of the meeting, be signed by the requisitionist(s), be marked for the attention of the Board or the Company Secretary and be deposited at the Company's principal place of business in Hong Kong at Flat A-C, 16th Floor, Champion Building, 287-291 Des Voeux Road Central, Hong Kong.

If within 21 days from the date of the deposit of the requisition the Board fails to proceed to convene such meeting to be duly held within a further 21 days, the requisitionist(s) themselves or any of them representing more than one-half of the total voting rights of all of them may convene a meeting in the same manner, as nearly as possible, as that in which meetings may be convened by the Board provided that any meeting so convened shall not be held after the expiration of three months from the date of deposit of the requisition, and all reasonable expenses incurred by the requisitionist(s) as a result of the failure of the Board shall be reimbursed by the Company to the requisitionist(s).

The notice period to be given to Shareholders for general meetings varies as follows:

- (a) At least 14 days' notice in writing if the proposal constitutes an ordinary resolution of the Company; and
- (b) At least 21 days' notice in writing if calling for an annual general meeting or the proposal constitutes a special resolution of the Company in EGM.

## **Right to Put Enquiries to the Board**

Shareholders have the right to put enquiries to the Board. All enquiries shall be in writing and sent by post to the principal place of business of the Company in Hong Kong or by e-mail to [christine.sin@medicskin.com](mailto:christine.sin@medicskin.com) for the attention of the Company Secretary.

## **Right to Put Forward Proposals at General Meetings**

There are no provisions allowing the Shareholders to propose new resolutions at the general meetings under the Cayman Islands Companies Law. However, the Shareholders may follow the procedure set out in the section headed "Rights to convene an EGM" above for including a resolution at an EGM. The requirements and procedures are set out above.

## **Right to Propose a Person for Election as a Director**

Detailed procedures for a Shareholder to propose a person for election as a Director are available on the Company's website.

# CORPORATE GOVERNANCE REPORT

## DIVIDEND POLICY

The Company has adopted a dividend policy in compliance with the CG Code to set out the Company's procedures on declaring and recommending the dividend payment of the Company. The Company may distribute dividends to the Shareholders by way of cash or shares and any distribution of dividends shall be in accordance with the Articles of Association.

The declaration and payment of dividends and the amount of dividends will be at the discretion of the Board and will depend on, inter alia, the Group's earnings, financial condition, capital requirements and surplus and any other factors that the Board may consider relevant.

Any declaration of dividends will be subject to the approval of the Board, having considered the above factors, and, Shareholders' approval, where applicable. Any distributable profits that are not distributed in any given year will be retained and available for distribution in subsequent years. The Board may also consider declaring special dividends from time to time, in addition to interim and/or final dividends.

The Company shall review and reassess its dividend policy and its effectiveness on a regular basis or as required.

## INVESTOR RELATIONS

The Company has established a range of communication channels between itself and its Shareholders, investors and other stakeholders. These include the annual general meeting, the annual, interim and quarterly reports, notices, announcements and circulars and the Company's website at [www.medicskin.com](http://www.medicskin.com).

## CONSTITUTIONAL DOCUMENTS

For the year ended 31 March 2020, there had been no significant change in the Company's constitutional documents.

# ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

This report covers certain environmental and social responsibility aspects underlying the Group's major business operation in Hong Kong during the year ended 31 March 2020 and is prepared with reference to the Environmental, Social and Governance ("ESG") Reporting Guide as set out in Appendix 20 of the GEM Listing Rules (the "ESG Reporting Guide").

The Company has complied with the "Comply or explain" provisions set out in the ESG Reporting Guide during the year ended 31 March 2020.

# ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

## A. ENVIRONMENT ASPECTS

### Environmental Protection Policy

The Group regularly follows the latest environmental protection laws and regulations in Hong Kong, including Air Pollution Control Ordinance (Chapter 311 of the Laws of Hong Kong), the Waste Disposal Ordinance (Chapter 354 of the Laws of Hong Kong), the Water Pollution Control Ordinance (Chapter 358 of the Laws of Hong Kong). Our management team has the overall responsibility for environmental protection matters. The management team reviews the Group's environmental compliance on a regular basis. The Group was not subject to any environmental claims, lawsuits, penalties or administrative sanctions during the reporting period.

### Emission

#### Air Emission

As the Group's main business activities focused on the provision of medical skin care services, there was no material gaseous fuel consumption involved. However, electricity consumption in our office and centres can cause indirect greenhouse gas emission.

Petrol used in vehicle owned by the Group by Directors for business purpose contributed to the emission of 0.01427kg (0.02033 kg for the corresponding period in 2019) of sulphur oxides. Due to the lack of related data, emissions of nitrogen oxides and respiratory suspended particles were not calculated, but it is noteworthy that the aspect of air emissions was considered immaterial to the Group's operation.

#### Greenhouse Gas Emission

To cope with the climate change challenge that the world is facing, the Group is committed to take sustainable, long-term actions to manage the carbon footprint of our own operations. The most significant greenhouse gas ("GHG") emission source of the Group was from the electricity consumption. In light of reducing GHG emissions, we continue to encourage our employees to conduct conference calls or video conferences instead of face-to-face meetings. Electronic documents, both-side printing and recycle paper are also encouraged to be used. We also equip the offices with more environmental-friendly lighting to reduce the electricity consumed.

GHG Emission Sources	GHG Emission (kg)	GHG Emission (kg)
	(Equivalent CO <sub>2</sub> )	(Equivalent CO <sub>2</sub> )
	2020	2019
Scope 1 Direct emissions from vehicle owned by the Group	2,290	3,263
Scope 2 Energy indirect emission from purchased electricity	63,720	70,228
Scope 3 Other indirect emission from paper waste disposal at landfills	528	797
Total	66,538	74,288
Greenhouse gas emission intensity per employee	1,446	1,456

Note: GHG emission due to electricity used for fresh water/sewage processing were not included in the calculation as relevant data was not available to the Group.

# ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

## Hazardous Waste

### *Clinical Waste*

In the course of business operation of the Group, in addition to the general emission of GHG, clinical waste is discharged during the provision of medical skin care services which cause potential influence on the environment and may expose the Group to relevant compliance risk. The Group exercises the greatest care possible in managing any clinical waste it may produce. The Group has policies and procedures in place for waste treatment in accordance with the Waste Disposal Ordinance Chapter 354 of the Laws of Hong Kong and the Water Disposal (Clinical Waste) (General) Regulation Chapter 354O of the Laws of Hong Kong. To comply with the relevant laws of Hong Kong, employees dispose of clinical waste into specific containers which are carefully coded and sealed with ties separately. They are then collected by a licensed clinical waste collector and delivered to a licensed disposal facility. A detailed record of waste production and collection is also maintained in-house and be inspected by management on a regular basis.

During the reporting period, approximately 48.0kg (intensity 1.04kg per employee) compared to 40.5kg (intensity 0.79kg per employee) for the corresponding period in 2019 of clinical waste have been generated as a result of the Group's business operations. The Group complied with all applicable laws and regulation in relation to clinical waste in Hong Kong.

### *Chemical Waste – Expired Medicine*

The Group follows the "first in, first out" method when storing and dispensing medicines to customers to ensure that the oldest items are consumed first to avoid wastage. Our inventory is monitored and updated by assigned staff through the enterprise resources processing system. Any expired medicines will be sent back to purchasing department for further handling, which will be either collected by respective suppliers for exchange or chemical waste collector for disposal (as the case may be). During the year of reporting, a total of approximately 18.0kg of expired medication was generated compared to 18.0kg for the corresponding period of 2019.

## Non-Hazardous Waste

The Group generates general non-hazardous waste during its operation, including paper, paper towels, masks and plastic gloves. After collection and classification, such wastes will eventually be collected and disposed by property management office. Recyclable waste (such as paper) will be recycled for reuse. With a view to minimise the environmental impact brought by these emission and wastes, the Group strives to reduce, reuse and recycle throughout its operations to minimise the disposal of waste to the landfill by:

### *Recycle*

- Separating the paper waste from other waste for easier recycling;

### *Reuse*

- Using recycled papers, and 100% recycling rate of ink and toner cartridges;
- Providing recycling boxes beside the photocopier, collecting used paper (blank on one side) for potential reuse;
- Setting duplex printing as the default mode for most network printers;

### *Reduce*

- Reminding employees to practice photocopying wisely;
- Encouraging the employees to use both sides of paper; and
- Using office automation system for increasing administration efficiency and reducing paper use.

# ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

During the reporting period, a total of approximately 4.13 tonnes of non-hazardous waste was generated (of which the intensity was 1.033 tonnes per location) compared to 4.90 tonnes (of which the intensity was 1.225 tonnes per location) for the corresponding period of 2019.

## Measures to Mitigate Emissions and efficiency initiatives

The principal GHG emissions of the Group are generated from purchased electricity. Our goal is a 5% to 10% reduction of emission over five years compared with 2018. The Group actively adopts electricity conservation and energy saving measures as well as other measures to achieve this goal:

1. The room temperature in Group's premises is monitored and regulated at 25 degree Celsius to maintain a balance between thermal comfort and electricity consumption.
2. To clean air-conditioning systems and dust filters regularly.
3. The lighting of our two medical skin care centres (the "Medicskin Centre(s)") and back office were upgraded from traditional lighting to energy saving LED lights.
4. Turn off facilities, lights, air-conditioning when not in use.
5. To activate "sleep" mode in some of office equipment during office hours, including photocopiers and printers.
6. Turn off unnecessary equipment completely including computers.
7. Encouraging our senior employees to schedule regular meeting with conference calls or use of other electronic media to reduce travelling for business meetings when applicable.
8. All other paper saving measures described in the Section A "Non-Hazardous Waste".

## Moving Forward on Environmental Protection

To create a greener future, the Group will regularly assess the environmental protection measures to save energy and reduce waste. We believe that the implementation of these policies and procedures will bring about a win-win situation for both the environment and the Group's operation.

## Resources Consumption

## ***The Environment and natural resources***

Significant Impacts of Activities on the Environment

The Group's business activities do not generate major impacts on the environment. According to the Group's "Environmental and Social Sustainability Policy", the Group integrates environmental consideration into business decision in line with our commitment to environmental sustainability so as to raise our employee's awareness of environmental issues, encouraging environmentally responsible behavior to enable them to play a full role in implementing our environmental policy.

The Group did not receive any complaints from the surrounding community regarding air pollution, odour, noise, or other environmental pollution incidents during the reporting period. The Group will continue to monitor its air emissions, solid waste generation, wastewater discharge to ensure the minimal impacts on the surrounding environment.

## **B. SOCIAL Employment**

The Group has Code of Conduct Policy distributed to employees outlining expectations for employee's conduct, employee's right and benefit. We also set up relevant policies and arrangements for employees including but not limited to recruitment and promotion, compensation and dismissal, benefit programs and performance evaluation.

To attract, retain and motivate employees, the Group has devised a competitive compensation and benefits packages. In addition to the basic package, for instance annual leave, paid sick leave, severance payment, mandatory provident fund, employment compensation insurance, the Group also offers additional compensation and benefits such as paid leaves (study leave, personal emergency leave, marriage leave), group life insurance, year-end bonus, free skincare products, education sponsorship, medical treatments, deliver festive foods to employees during certain traditional festivals and beauty products discount to its employees. In addition, the Group has established the Share Option Scheme to provide incentives and rewards to eligible employees who have made significant contributions to the Group.

# ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

The Group carries out regular performance assessment on a yearly basis, enabling employees to gain an accurate sense of their prospects and of potential future paths. Salaries are reviewed annually for each grade of employees by the management, to ensure that its remuneration packages remain competitive. This enables the Group to retain high quality employees and provide them with strong initiatives for performing well.

During the reporting period, the Group complied with all applicable employment and labour related laws and regulations of Hong Kong including but not limited to:

- The Employment Ordinance, Chapter 57 of the Laws of Hong Kong;
- The Minimum Wage Ordinance, Chapter 608 of the Laws of Hong Kong; and
- The Employees' Compensation Ordinance, Chapter 282 of the Laws of Hong Kong.

## ***Equal Opportunity***

The Group provides equal opportunities for employees in respect of recruitment, training and development, job advancement, and compensation and benefits. The employees are not discriminated or deprived of such opportunities on the basis of gender, ethnic background, colour, sexual orientation, age, marital status, family status, retirement, disability, pregnancy or any other discrimination prohibited by applicable laws. The Group appreciates the importance of cultural diversity in the development of the Group, and employs employees in a wide range of ages, genders, and ethnicities.

During the reporting year, the Group complied with all applicable employment and labour related laws and regulations of Hong Kong including but not limited to:

- Sex Discrimination Ordinance, Chapter 480 of the Laws of Hong Kong;
- Family Status Discrimination Ordinance, Chapter 527 of the Laws of Hong Kong; and
- Race Discrimination Ordinance, Chapter 602 of the Laws of Hong Kong.

## ***Working Environment***

The Group places a strong emphasis on work-life balance and tries to enhance employees' sense of belonging and morale. As a caring employer, the Group caters to the needs and schedules of its employees, offering flexible work-hour arrangements for employees. Complementing these are social activities such as cinema night, Christmas party, monthly departmental tea meal and birthday celebration for each staff, which can help foster a sense of belonging and loyalty.

## ***Health and Safety***

The Group values health and safety as of paramount importance and strives to provide a safe working environment to all employees. The Group implements internal policies including procedures and guidelines to handling equipment, needle sticks, sharp objects and medical waste. Employees are required to put on personal protective equipment, including protective gown, surgical masks, protective goggles and gloves when engaging in medical treatment. Sharp equipment is handled in accordance with the policies guidelines. The Group also arranges regular employees training on operation safety, handling of emergency & accidents to enhance safety awareness and regularly reviews the employee's health and safety procedures to safeguard employee's well-being.

During the reporting period, the Group complied with the Occupational Safety and Health Ordinance, Chapter 509 of the Laws of Hong Kong and there was no related work injuries or fatalities and no legal case regarding health and safety brought against the Group.

# ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

## ***Development and Training***

The Group provides its employees with clear and viable opportunities for self-development and career advancement within the Group. It supports its employees to develop and enhance their professional knowledge and skills to cope with the evolving market environment and compliance level. By providing the following in-house training programs, its employee's competency can be developed further:

Trainings on service-related knowledge, such as, skincare products available at our centres, training courses in relation to latest medical and/or skin care technology, skin, treatment theories, functions, operations, safety precautions of medical equipment (provided by suppliers of devices), client handling skills and complaint management skills are provided from time to time.

All newly-hired employees attend employment orientation to understand the Group operations, working atmosphere, code of conduct and work safety to ensure all newly-hired employees are properly trained. Employees are also encouraged to take external professional trainings to strengthen their work-related expertise, subject to the management's approval, education sponsorship is available to employees in the form of job-related courses provided by external institutions.

We believes the above activities will not only enhance employees professional knowledge and improve their efficiency, but also increase their sense of belongings and reduce employees turnover rate.

## ***Labour Standard***

The Group's recruitment process is strictly adhered to the Group's Human Resources Policies and Procedures. Job applicants must complete an "Employment Application Form" with personnel information for internal record keeping and legal compliance. Review and verification of applicant's identity information is required during the recruitment process, and recruitment of child labour is strictly prohibited. Applicants are also required to provide document proofs of academic qualifications and working experience for verifications, applicant who is suspected to have false academic qualifications and working experience will not be employed. The Group enters employment contract with each of its employee in accordance with relevant laws in Hong Kong. For those employees who are medical practitioners in Hong Kong, they have registered with the Medical Council of Hong Kong in accordance with the provision of Medical Registration Ordinance.

During the reporting year, employees who practice medicine and surgery have registered with the Medical Council of Hong Kong in accordance with the provisions of the Medical Registration Ordinance, Chapter 161 of the Laws of Hong Kong. There was no child nor forced labor employed in the Group's operation, and the Group complied with Employment of Children Regulation (Chapter 57B of the Laws of Hong Kong).

## **Supply Chain Management**

The source of medications of the Group are from licensed drug dealers (i.e qualified pharmaceutical or medical manufacturers and/or distributors) in Hong Kong.

The quality and safety of skincare products are among the top priorities of the Group. The Group has policies and procedures for selecting suitable pharmaceutical products and medicine, skincare products and treatment consumables, as well as selecting reliable and quality suppliers. The Group has been continuously evaluating the performance of its suppliers. Evaluation of a supplier mainly includes background, qualification (for example, holding necessary license to provide such services), quality control of service, past performance and fulfillment of contract.

Apart from the above measures, to ensure the supply chain of the Group is operating as accurately and efficiently, purchased medicine and skincare products are registered with traceable suppliers and their distribution are shown clearly in our real time inventory system. Inventory review and inventory count are also carried out regularly in each centre.

# ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

Given the Group's solid and steady relationships with suppliers, the Group believes that it maintains a good and long-term relationship with selected suppliers by successfully establishing mutual trust and understanding. Generally, the Group has the right to reject goods, to require replacement and the payment of damages from its suppliers if the goods are defective or non-conforming.

During the year ended 31 March 2020, the Group did not encounter any material problem in sourcing pharmaceutical products and medicine, skincare products or treatment consumables based on the needs of Medicskin Centres, did not experience any material delays in receiving supplies from suppliers that would have had material impact on our business, financial condition or results of operations.

## **Product Responsibility**

### ***Pharmaceutical Handling & labelling***

The Group has standard procedures for storage of pharmaceutical and skincare products. Labels of pharmaceutical products to customers must show name of customers, date of dispensing, name and address of the doctor, name of medicine, dosage per unit, method and dosage of administration and precaution, where applicable.

### ***Advertisement***

During the year ended 31 March 2020, the Group complied with the Undesirable Medical Advertisements Ordinance (Chapter 231 of the Laws of Hong Kong) to protect public health without publication of advertisements for medicine, surgical appliance or treatment that may induce the seeking of improper management of certain health conditions. Information on advertisement is reviewed before publication to ensure that the advertisement has no misleading information. Patients can choose whether to receive updated healthcare news and promotions.

### ***Health and safety***

Quality and safety of the pharmaceutical products are ensured through certifications and qualifications from its suppliers.

All treatment devices used to perform treatments on clients are evaluated and assessed by the Group's doctors, with reference to the doctors' clinical knowledge and experience as well as by certain selection criteria including whether the devices are evidenced-based, i.e whether the use, effectiveness or technology of the devices are approved by national government agencies such as Food and Drug Administration of the US (FDA) or Ministry of Food and Drug Safety of Korea (MFDS) and/or supported by independent medical journals, to ensure that they are reliable and are capable of delivering desired outcomes and results of clients.

During the year ended 31 March 2020, we did not encounter any quality issue on our purchases or did not receive any defective products that would have had material impact on our business, financial condition or results of operations.

### ***Data Protection and Privacy***

The Group has policy in place to provide adequate protection and confidentiality of all corporate data and information. Security measures are in place to ensure adequate protection and confidentiality of all corporate data and information. Information collected would only be used for the purpose for which it has been collected and clients would be told about how the data collected would be used in the Group's business. The Group prohibits the provision of client information to a third party without authorisation from the clients. Clients reserve the rights to review and revise their data, and also reserve the rights to opt out from any direct marketing activities. All collected personal data is treated confidentially, kept secure and accessible by designated personnel only. Through internal trainings and confidential agreements with employees, the Group emphasizes on confidentiality obligations and the legal consequences for the breaches of obligations. During the reporting period, the Group complied with the Personal Data (Privacy) Ordinance (Chapter 486 of the Laws of Hong Kong).

# ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

## Anti-corruption

The Group is committed to conducting all businesses without undue influence and has regarded honesty, integrity, and fairness as its core values that must be upheld by all directors and employees at all times. To formalise the commitments, a series of policies and handbooks are in place in the Group and has set out the requirements expected of all directors and employees when dealing with its business. Some of the guiding documents include:

### Code of Conduct Policy

- Neither directors nor employees shall obtain or provide benefit to clients, contractors, suppliers or people with business relationship with the Group.
- Employees should avoid any conflict of interest situation, when actual or potential conflict of interest arises, the directors or employees shall make a declaration to the management.
- Accepting voluntary gifts must be declared. All directors and employees are required to strictly follow the “Gift and Entertainment Policy” and have to undergone the approval process as stipulated in that policy.

### Whistleblowing Policy

- Providing the necessary mechanism for employees who report misconduct within the organisation.

### Purchasing and Stock Control Policies

- Preventing and managing possible abuse of power and authority, conflict of interest and bribery.

During the year ended 31 March 2020, the Group was in compliance with the Prevention of Bribery Ordinance (Cap. 201) and there were no legal cases regarding corrupt practices brought against the Group or its directors or employees.

## Community Involvement

The Group is fully aware of the importance of interacting with the wider community in fulfilling corporate social responsibility. In this aspect, the Group would explore the possibility to identify suitable partners and support community and environmental programmes that align with the Group’s missions and values.

The Group has been supporting Medecins Sans Frontieres (“**MSF**”) and placed MSF’s donation boxes in the Group’s Medicskin Centres to support MSF’s worldwide relief work.

## Independent Auditor's Report to the Shareholders of Medicskin Holdings Limited

*(incorporated in the Cayman Islands with limited liability)*

### OPINION

We have audited the consolidated financial statements of Medicskin Holdings Limited (the “**Company**”) and its subsidiaries (collectively referred to as the “**Group**”) set out on pages 52 to 115, which comprise the consolidated statement of financial position as at 31 March 2020, and the consolidated statement of profit or loss and other comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, the consolidated financial statements give a true and fair view of the consolidated financial position of the Group as at 31 March 2020, and of its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with Hong Kong Financial Reporting Standards (“**HKFRSs**”) issued by the Hong Kong Institute of Certified Public Accountants (“**HKICPA**”) and have been properly prepared in compliance with the disclosure requirements of the Hong Kong Companies Ordinance.

### BASIS FOR OPINION

We conducted our audit in accordance with Hong Kong Standards on Auditing (“**HKSAs**”) issued by the HKICPA. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the HKICPA's Code of Ethics for Professional Accountants (the “**Code**”), and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

### KEY AUDIT MATTERS

Key audit matter is that matter that, in our professional judgement, was of most significance in our audit of the consolidated financial statements of the current period. This matter was addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on this matter.

# INDEPENDENT AUDITOR'S REPORT

## KEY AUDIT MATTERS *(Continued)*

### Estimation of expected unexercised rights on provision of medical skin care treatments ("Treatment Service")

We identified the estimation of expected unexercised rights on Treatment Service as a key audit matter due to significant estimation required by management in the application of revenue recognition policies.

The Group offers prepaid treatment packages in relation to Treatment Service ("**Prepaid Treatment Package(s)**") to customers as Treatment Service requires multiple sessions to achieve desired results. Upon receipts of a prepayment from customers, the Group recognised contract liabilities in the consolidated statement of financial position for the performance obligation to transfer in the future.

These non-refundable prepayments give the customer a right to receive Treatment Service in the future (and oblige the Group to stand ready to provide Treatment Service). However, customers may not exercise all of their contractual rights within the valid service periods for various reasons. Those expected unexercised rights are referred to as "breakage".

The expected unexercised rights on Treatment Service is estimated by management based on historical customer behaviour and usage pattern and is recognised as revenue when the likelihood of the customer exercising its remaining rights become remote.

The Group recognised the expected breakage amount of HK\$466,000 as revenue in the consolidated statement of profit or loss and other comprehensive income for the year ended 31 March 2020.

Our procedures in relation to the estimation of expected unexercised rights on Treatment Service included:

- Obtaining an understanding of the Group's internal control on revenue recognition and estimation of expected unexercised rights on Treatment Service;
- Assessing the integrity, completeness and accuracy of the data used by management by inspecting cash receipt from customers on Prepaid Treatment Package, its valid service period, number of session being entitled and its usage on a sampling basis;
- Assessing the reasonableness of significant assumptions used by management with reference to the historical usage pattern of Prepaid Treatment Packages of the Group;
- Performing recalculation of revenue recognised for expected unexercised rights on Treatment Service.

# INDEPENDENT AUDITOR'S REPORT

## OTHER INFORMATION

The directors of the Company are responsible for the other information. The other information comprises the information included in the annual report, but does not include the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

## RESPONSIBILITIES OF DIRECTORS AND THOSE CHARGED WITH GOVERNANCE FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The directors of the Company are responsible for the preparation of the consolidated financial statements that give a true and fair view in accordance with HKFRSs issued by the HKICPA and the disclosure requirements of the Hong Kong Companies Ordinance, and for such internal control as the directors of the Company determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the directors of the Company are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's financial reporting process.

## AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion solely to you, as a body, in accordance with our agreed terms of engagement, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKSAAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with HKSAAs, we exercise professional judgement and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

# INDEPENDENT AUDITOR'S REPORT

## AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS *(Continued)*

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matter. We describe this matter in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

# NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 March 2020

## 1. GENERAL

The Company is a limited company incorporated in the Cayman Islands and its shares are listed on GEM of The Stock Exchange of Hong Kong Limited (the “**Stock Exchange**”). Its immediate and ultimate holding company is Topline Worldwide Limited, a company incorporated in the British Virgin Islands (“**BVI**”) with limited liability. Its ultimate controlling party is Dr. Kong Kwok Leung (“**Dr. Kong**”), who is also the Chairman, Chief Executive Officer and an executive Director of the Company. The addresses of the registered office and principal place of business of the Company are disclosed in the corporation information section of the annual report.

The Company is an investment holding company. Details of the principal activities of its subsidiaries are set out in Note 35.

The functional currency of the Company is Hong Kong dollars (“**HK\$**”), which is the same as the presentation currency of the consolidated financial statements.

## 2. APPLICATION OF NEW AND AMENDMENTS TO HONG KONG FINANCIAL REPORTING STANDARDS (“**HKFRSs**”)

### **New and amendments to HKFRSs that are mandatorily effective for the current year**

The Group has applied the following new and amendments to HKFRSs issued by the Hong Kong Institute of Certified Public Accountants (“**HKICPA**”) for the first time in the current year:

HKFRS 16	Leases
HK(IFRIC)-Int 23	Uncertainty over Income Tax Treatments
Amendments to HKFRS 9	Prepayment Features with Negative Compensation
Amendments to HKAS 19	Plan Amendment, Curtailment or Settlement
Amendments to HKAS 28	Long-term Interests in Associates and Joint Ventures
Amendments to HKFRSs	Annual Improvements to HKFRSs 2015-2017 Cycle

In addition, the Group has early applied Amendments to HKFRS 16 COVID-19-Related Rent Concessions which will be mandatorily effective for the Group on or after 1 June 2020.

Except as described below, the application of the new and amendments to HKFRSs in the current year has had no material impact on the Group’s financial performance and positions for the current and prior years and/or on the disclosures set out in these consolidated financial statements.

The Group has applied HKFRS 16 Leases (“**HKFRS 16**”) for the first time in the current period. HKFRS 16 superseded HKAS 17 Leases (“**HKAS 17**”), and the related interpretations.

### **HKFRS 16 Leases**

#### ***Definition of a lease***

The Group has elected the practical expedient to apply HKFRS 16 to contracts that were previously identified as leases by applying HKAS 17 and HK(IFRIC)-Int 4 Determining whether an Arrangement contains a Lease and not apply this standard to contracts that were not previously identified as containing a lease. Therefore, the Group has not reassessed contracts which already existed prior to the date of initial application.

For contracts entered into or modified on or after 1 April 2019, the Group applies the definition of a lease in accordance with the requirements set out in HKFRS 16 in assessing whether a contract contains a lease.

# NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 March 2020

## 2. APPLICATION OF NEW AND AMENDMENTS TO HONG KONG FINANCIAL REPORTING STANDARDS ("HKFRSs") (Continued)

### HKFRS 16 Leases (Continued)

#### As a lessee

The Group has applied HKFRS 16 retrospectively with the cumulative effect recognised at the date of initial application, 1 April 2019. As at 1 April 2019, the Group recognised additional lease liabilities and right-of-use assets at amounts equal to the related lease liabilities by applying HKFRS 16.C8(b)(ii) transition. Any difference at the date of initial application is recognised in the opening balance and comparative information has not been restated.

When applying the modified retrospective approach under HKFRS 16 at transition, the Group applied the following practical expedients to leases previously classified as operating leases under HKAS 17, on lease-by-lease basis, to the extent relevant to the respective lease contracts:

- i. elected not to recognise right-of-use assets and lease liabilities for leases with lease term ending within 12 months of the date of initial application;
- ii. excluded initial direct costs from measuring the right-of-use assets at the date of initial application;
- iii. applied a single discount rate to a portfolio of leases with a similar remaining terms for similar class of underlying assets in similar economic environment. Specifically, discount rate for certain leases of properties in Hong Kong was determined on a portfolio basis; and
- iv. elected not to assess whether a rent concession that meets the conditions in paragraph 46B of HKFRS 16 (COVID-19-Related Rent Concessions Amendment) is a lease modification.

When recognising the lease liabilities for leases previously classified as operating leases, the Group has applied incremental borrowing rates of the relevant group entities at the date of initial application. The weighted average incremental borrowing rate applied is 5.13%.

	At 1 April 2019 HK\$'000
Operating lease commitments disclosed as at 31 March 2019	21,480
Lease liabilities discounted at relevant incremental borrowing rates	20,074

## 2. APPLICATION OF NEW AND AMENDMENTS TO HONG KONG FINANCIAL REPORTING STANDARDS (“HKFRSs”) (Continued)

### HKFRS 16 Leases (Continued)

#### As a lessee (Continued)

The following adjustments were made to the amounts recognised in the consolidated statement of financial position at 1 April 2019. Line items that were not affected by the changes have not been included.

	Carrying amounts previously reported at 31 March 2019 <i>HK\$'000</i>	Adjustments <i>HK\$'000</i>	Carrying amounts under HKFRS 16 at 1 April 2019 <i>HK\$'000</i>
<b>Non-current Assets</b>			
Right-of-use assets	–	20,390	20,390
Rental deposits	3,003	(368)	2,635
<b>Current Liabilities</b>			
Lease liabilities	–	7,152	7,152
<b>Non-current liabilities</b>			
Lease liabilities	–	12,870	12,870

#### As a lessor

Lessor accounting under HKFRS 16 is substantially unchanged from HKAS 17. Lessors will continue to classify leases as either operating or finance leases using similar principles as under HKAS 17. Therefore, HKFRS 16 does not have an impact for leases where the Group is the lessor.

### New and amendments to HKFRSs in issue but not yet effective

The Group has not early applied the following new and amendments to HKFRSs that have been issued but are not yet effective:

HKFRS 17	Insurance Contracts <sup>1</sup>
Amendments to HKFRS 3	Definition of a Business <sup>2</sup>
Amendments to HKFRS 10 and HKAS 28	Sale or Contribution of Assets between an Investor and its Associate or Joint Venture <sup>3</sup>
Amendments to HKAS 1 and HKAS 8	Definition of Material <sup>4</sup>
Amendments to HKFRS 9, HKAS 39 and HKFRS 7	Interest Rate Benchmark Reform <sup>4</sup>

<sup>1</sup> Effective for annual periods beginning on or after 1 January 2021

<sup>2</sup> Effective for business combinations and asset acquisitions for which the acquisition date is on or after the beginning of the first annual period beginning on or after 1 January 2020

<sup>3</sup> Effective for annual periods beginning on or after a date to be determined

<sup>4</sup> Effective for annual periods beginning on or after 1 January 2020

# NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 March 2020

## 2. APPLICATION OF NEW AND AMENDMENTS TO HONG KONG FINANCIAL REPORTING STANDARDS (“HKFRSs”) *(Continued)*

### **New and amendments to HKFRSs in issue but not yet effective** *(Continued)*

In addition to the above new and amendments to HKFRSs, a revised Conceptual Framework for Financial Reporting was issued in 2018. Its consequential amendments, the Amendments to References to the Conceptual Framework in HKFRS Standards, will be effective for annual periods beginning on or after 1 January 2020.

Except for the new and amendments to HKFRSs mentioned below, the directors of the Company (the “**Directors**”) anticipate that the application of all other new and amendments to HKFRSs will have no material impact on the consolidated financial statements in the foreseeable future.

### **Conceptual Framework for Financial Reporting 2018 (the “New Framework”)**

The New Framework:

- reintroduces the terms stewardship and prudence; introduces a new asset definition that focuses on rights and a new liability definition that is likely to be broader than the definition it replaces, but does not change the distinction between a liability and an equity instrument;
- discusses historical cost and current value measures, and provides additional guidance on how to select a measurement basis for a particular asset or liability;
- states that the primary measure of financial performance is profit or loss, and that only in exceptional circumstances other comprehensive income will be used and only for income or expenses that arise from a change in the current value of an asset or liability; and
- discusses uncertainty, derecognition, unit of account, the reporting entity and combined financial statements.

Consequential amendments have been made so that references in certain HKFRSs have been updated to the New Framework, whilst some HKFRSs are still referred to the previous versions of the framework. These amendments are effective for annual periods beginning on or after 1 January 2020, with earlier application permitted. Other than specific standards which still refer to the previous versions of the framework, the Group will rely on the New Framework on its effective date in determining the accounting policies especially for transactions, events or conditions that are not otherwise dealt with under the accounting standards.

# NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 March 2020

## 3. SIGNIFICANT ACCOUNTING POLICIES

The consolidated financial statements have been prepared in accordance with HKFRSs issued by HKICPA. In addition, the consolidated financial statements include applicable disclosures required by the Rules Governing the Listing of Securities on GEM of the Stock Exchange (the “**GEM Listing Rules**”) and by the Hong Kong Companies Ordinance.

The consolidated financial statements have been prepared on the historical basis at the end of each reporting period, as explained in the accounting policies set out below.

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Group takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date. Fair value for measurement and/or disclosure purposes in the consolidated financial statements is determined on such a basis, except for share-based payment transactions that are within the scope of HKFRS 2 Shared-based Payment, leasing transactions that are accounted for in accordance with HKFRS 16 (since 1 April 2019) or HKAS 17 (before application of HKFRS 16), and measurements that have some similarities to fair value but are not fair value, such as net realisable value in HKAS 2 Inventories or value in use in HKAS 36 Impairment of Assets.

The principal accounting policies adopted are set out below.

### **Basis of consolidation**

The consolidated financial statements incorporate the financial statements of the Company and entities controlled by the Company and its subsidiaries. Control is achieved when the Company:

- has power over the investee;
- is exposed, or has rights, to variable returns from its involvement with the investee; and
- has the ability to use its power to affect its returns.

The Group reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control listed above.

Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Specifically, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated statement of profit or loss and other comprehensive income from the date the Group gains control until the date when the Group ceases to control the subsidiary.

Profit or loss and each item of other comprehensive income are attributed to the owners of the Company and to the non-controlling interests. Total comprehensive income of subsidiaries is attributed to the owners of the Company and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance.

# NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 March 2020

## 3. SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

### **Basis of consolidation** *(Continued)*

When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies in line with the Group's accounting policies.

All intra-group assets, liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

Non-controlling interests in subsidiaries are presented separately from the Group's equity therein, which represent present ownership interests entitling their holders to a proportionate share of net assets of the relevant subsidiaries upon liquidation.

### **Business combinations**

Acquisitions of businesses are accounted for using the acquisition method. The consideration transferred in a business combination is measured at fair value, which is calculated as the sum of the acquisition-date fair values of the assets transferred by the Group, liabilities incurred by the Group to the former owners of the acquiree and the equity interests issued by the Group in exchange for control of the acquiree. Acquisition related costs are generally recognised in profit or loss as incurred.

At the acquisition date, the identifiable assets acquired and the liabilities assumed are recognised at their fair value at the acquisition date, except that:

- deferred tax assets or liabilities, assets or liabilities related to employee benefit arrangements are recognised and measured in accordance with HKAS 12 Income Taxes and HKAS 19 Employee Benefits respectively;
- liabilities or equity instruments related to share-based payment arrangement of the acquiree or share-based payment arrangement of the Group entered into to replace share-based payment arrangements of the acquiree are measured in accordance with HKFRS 2 Share-based Payment at the acquisition date (see the accounting policy below); and
- assets (or disposal groups) that are classified as held for sale in accordance with HKFRS 5 Non-current Assets Held for Sale and Discontinued Operations are measured in accordance with that standard.

Goodwill is measured as the excess of the sum of the consideration transferred, the amount of any non-controlling interests in the acquiree, and the fair value of the acquirer's previously held equity interest in the acquiree (if any) over the net amounts of the identifiable assets acquired and the liabilities assumed as at acquisition date. If, after re-assessment, the net amount of the acquisition-date amounts of the identifiable assets acquired and liabilities assumed exceeds the sum of the consideration transferred, the amount of any non-controlling interests in the acquiree and the fair value of the acquirer's previously held interest in the acquiree (if any), the excess is recognised immediately in profit or loss as a bargain purchase gain.

Non-controlling interests that are present ownership interests and entitle their holders to a proportionate share of the relevant subsidiary's net assets in the event of liquidation are initially measured either at fair value or at the non-controlling interests' proportionate share of the recognised amounts of the acquiree's identifiable net assets. The choice of measurement basis is made on a transaction-by-transaction basis. Other types of non-controlling interests are measured at their fair value or, when applicable, on the basis specified in another HKFRS.

# NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 March 2020

## 3. SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

### **Non-current assets held for sale**

Non-current assets and disposal groups are classified as held for sale if their carrying amount will be recovered principally through a sale transaction rather than through continuing use. This condition is regarded as met only when the asset (or disposal group) is available for immediate sale in its present condition subject only to terms that are usual and customary for sales of such asset (or disposal group) and its sale is highly probable. Management must be committed to the sale, which should be expected to qualify for recognition as a completed sale within one year from the date of classification.

When the Group is committed to a sale plan involving loss of control of a subsidiary, all of the assets and liabilities of that subsidiary are classified as held for sale when the criteria described above are met, regardless of whether the Group will retain a non-controlling interest in the relevant subsidiary after the sale.

Non-current assets (and disposal groups) classified as held for sale are measured at the lower of their previous carrying amount and fair value less costs to sell, except for financial assets within the scope of HKFRS 9 Financial Instruments ("HKFRS 9") which continue to be measured in accordance with the accounting policies as set out in respective sections.

As long as a non-current asset is classified as held for sale, or is included in a disposal group that is classified as held for sale, the non-current asset is not depreciated or amortised.

### **Revenue from contracts with customers**

Under HKFRS 15 Revenue from Contracts with Customers, the Group recognises revenue when (or as) a performance obligation is satisfied, i.e. when "control" of the goods or services underlying the particular performance obligation is transferred to the customer.

A performance obligation represents a good or service (or a bundle of goods or services) that is distinct or a series of distinct goods or services that are substantially the same.

Control is transferred over time and revenue is recognised over time by reference to the progress towards complete satisfaction of the relevant performance obligation if one of the following criteria is met:

- the customer simultaneously receives and consumes the benefits provided by the Group's performance as the Group performs;
- the Group's performance creates and enhances an asset that the customer controls as the Group performs;  
or
- the Group's performance does not create an asset with an alternative use to the Group and the Group has an enforceable right to payment for performance completed to date.

Otherwise, revenue is recognised at a point in time when the customer obtains control of the distinct good or service.

# NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 March 2020

## 3. SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

### **Revenue from contracts with customers** *(Continued)*

A contract asset represents the Group's right to consideration in exchange for goods or services that the Group has transferred to a customer that is not yet unconditional. It is assessed for impairment in accordance with HKFRS 9 Financial Instruments. In contrast, a receivable represents the Group's unconditional right to consideration, i.e. only the passage of time is required before payment of that consideration is due.

A contract liability represents the Group's obligation to transfer goods or services to a customer for which the Group has received consideration (or an amount of consideration is due) from the customer.

A contract asset and a contract liability relating to a contract are accounted for and presented on a net basis.

### ***Incremental costs of obtaining a contract***

The Group recognises such costs (commission paid/payable to employees in connection with obtaining Prepaid Treatment Packages with customers) as an asset if it expects to recover these costs. The asset so recognised is subsequently amortised to profit or loss on a systematic basis that is consistent with the transfer to the customer of the goods or services to which the assets relate. During the year ended 31 March 2020, incremental costs of obtaining contracts have had no material financial impact on the Group's financial position and performance.

### ***Over time revenue recognition: measurement of progress towards complete satisfaction of a performance obligation***

#### *Output method*

The progress towards complete satisfaction of a performance obligation is measured based on output method, which is to recognise revenue on the basis of direct measurements of the value of the goods or services transferred to the customer to date relative to the remaining goods or services promised under the contract, that best depict the Group's performance in transferring control of goods or services.

Revenue from provision of consultation services ("**Consultation Service**") is recognised when the related services are rendered. Payment of transaction price is due immediately after customer receives the service.

Revenue from provision of medical skin care treatments ("**Treatment Service**") is recognised over time using output method by reference to the progress towards complete satisfaction of relevant performance obligation. The customer simultaneously receives and consumes the benefits provided by the Group's performance as the Group performs. Prepaid Treatment Packages are sold to customers and the receipts in respect of which are deferred and recognised as contract liabilities in the consolidated statement of financial position initially and subsequently recognised as revenue when the services are provided to customers. Customers may not exercise all of their contractual rights within the valid service periods. Those expected unexercised rights are referred to as "breakage". The expected unexercised rights on Treatment Service is estimated by management based on historical customer behaviour and usage pattern and is recognised as revenue when the likelihood of the customer exercising its remaining rights become remote. Any contract liabilities outstanding at the expiry of the service period are fully recognised in profit or loss.

Revenue from provision of prescription and dispensing of medication and/or skincare products including sale of skin care products ("**Prescription and Dispensing Service**") is recognised when control of the goods has transferred, being at the point the customers takes possession of and accepts the medication and/or skincare products at the Group's service centres. Payment of transaction price is due immediately at the point the customer purchases the goods.

### Revenue from contracts with customers *(Continued)*

Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts the estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount on initial recognition.

The Group's accounting policy for recognition of revenue from operating leases is described in the accounting policy for leasing below.

### Property, plant and equipment

Property, plant and equipment including leasehold land (classified as finance leases) and buildings held for use in the production or supply of goods or services, or for administrative purposes, are stated in the consolidated statement of financial position at cost less subsequent accumulated depreciation and subsequent accumulated impairment losses, if any.

Depreciation is recognised so as to write off the cost of assets less their residual values over their estimated useful lives, using the straight-line method. The estimated useful lives, residual values and depreciation method are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in profit or loss.

Reinstatement costs are provided for and included in property, plant and equipment and charged to the consolidated statement of profit or loss on a straight-line basis over the lease term.

### Investment properties

Investment properties are properties held to earn rentals and/or for capital appreciation.

Investment properties are initially measured at cost, including any directly attributable expenditure. Subsequent to initial recognition, investment properties are stated at cost less subsequent accumulated depreciation and any accumulated impairment losses. Depreciation is recognised so as to write off the cost of investment properties over their estimated useful lives and after taking into account of their estimated residual value, using the straight-line method.

An investment property is derecognised upon disposal or when the investment property is permanently withdrawn from use and no future economic benefits are expected from its disposals. Any gain or loss arising on derecognition of the property (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in profit or loss in the period in which the property is derecognised.

### **Impairment on tangible assets**

At the end of the reporting period, the Group reviews the carrying amounts of its tangible assets to determine whether there is any indication that these assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss, if any.

The recoverable amount of tangible assets are estimated individually. When it is not possible to estimate the recoverable amount individually, the Group estimates the recoverable amount of the cash-generating unit to which the asset belongs. When a reasonable and consistent basis of allocation can be identified, corporate assets are also allocated to individual cash-generating units, or otherwise they are allocated to the smallest group of cash-generating units for which a reasonable and consistent allocation basis can be identified.

Recoverable amount is the higher of fair value less costs of disposal and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

If the recoverable amount of an asset (or cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or cash-generating unit) is reduced to its recoverable amount. An impairment loss is recognised immediately in profit or loss.

Where an impairment loss subsequently reverses, the carrying amount of the asset (or cash-generating unit) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (or cash-generating unit) in prior years. A reversal of an impairment loss is recognised immediately in profit or loss.

### **Leases**

#### ***Definition of a lease (upon application of HKFRS 16 in accordance with transition in Note 2)***

A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

The Group assesses whether a contract is or contains a lease based on the definition under HKFRS 16 at inception or modification date. Such contract will not be reassessed unless the terms and conditions of the contract are subsequently changed.

#### ***The Group as a lessee (upon application of HKFRS 16 in accordance with transition in Note 2)***

##### *Short-term leases*

The Group applies the short-term lease recognition exemption to leases of office premises that have a lease term of 12 months or less from the commencement date and do not contain a purchase option. Lease payments on short-term leases are recognised as expense on a straight-line basis over the lease term.

### **Leases** *(Continued)*

#### ***The Group as a lessee (upon application of HKFRS 16 in accordance with transition in Note 2)***

*(Continued)*

#### *Right-of-use assets*

Except for short-term leases, the Group recognises right-of-use assets at the commencement date of the lease (i.e. the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities.

The cost of right-of-use asset includes:

- the amount of the initial measurement of the lease liability;
- any lease payments made at or before the commencement date, less any lease incentives received;
- any initial direct costs incurred by the Group; and
- an estimate of costs to be incurred by the Group in dismantling and removing the underlying asset, restoring the site on which it is located or restoring the underlying asset to the condition required by the terms and conditions of the lease.

Right-of-use assets in which the Group is reasonably certain to obtain ownership of the underlying leased asset at the end of the lease term are depreciated from commencement date to the end of the useful life. Otherwise, right-of-use assets are depreciated on a straight-line basis over the shorter of their estimated useful life and the lease term.

The Group presents right-of-use assets as a separate line item on the consolidated statement of financial position.

#### *Refundable rental deposits*

Refundable rental deposits paid are accounted under HKFRS 9 and initially measured at fair value. Adjustments to fair value at initial recognition are considered as additional lease payments and included in the cost of right-of-use assets.

### **Leases** *(Continued)*

#### ***The Group as a lessee (upon application of HKFRS 16 in accordance with transition in Note 2)***

*(Continued)*

#### *Lease liabilities*

At the commencement date of a lease, the Group recognises and measures the lease liability at the present value of lease payments that are unpaid at that date. In calculating the present value of lease payments, the Group uses the incremental borrowing rate at the lease commencement date if the interest rate implicit in the lease is not readily determinable.

The lease payments include:

- fixed payments (including in-substance fixed payments) less any lease incentives receivable;
- variable lease payments that depend on an index or a rate;
- amounts expected to be paid under residual value guarantees;
- the exercise price of a purchase option reasonably certain to be exercised by the Group; and
- payments of penalties for terminating a lease, if the lease term reflects the Group exercising the option to terminate.

After the commencement date, lease liabilities are adjusted by interest accretion and lease payments.

The Group remeasures lease liabilities (and makes a corresponding adjustment to the related right-of-use assets) whenever:

- the lease term has changed or there is a change in the assessment of exercise of a purchase option, in which case the related lease liability is remeasured by discounting the revised lease payments using a revised discount rate at the date of reassessment.
- the lease payments change due to changes in market rental rates following a market rent review/expected payment under a guaranteed residual value, in which cases the related lease liability is remeasured by discounting the revised lease payments using the initial discount rate.

The Group presents lease liabilities as a separate line item on the consolidated statement of financial position.

### **Leases** *(Continued)*

#### ***The Group as a lessee (upon application of HKFRS 16 in accordance with transition in Note 2)***

*(Continued)*

#### *Lease modifications*

The Group accounts for a lease modification as a separate lease if:

- the modification increases the scope of the lease by adding the right to use one or more underlying assets; and
- the consideration for the leases increases by an amount commensurate with the stand-alone price for the increase in scope and any appropriate adjustments to that stand-alone price to reflect the circumstances of the particular contract.

For a lease modification that is not accounted for as a separate lease, the Group remeasures the lease liability based on the lease term of the modified lease by discounting the revised lease payments using a revised discount rate at the effective date of the modification.

#### *Practical expedient of COVID-19-Related Rent Concessions*

As a practical expedient, the Group elected not to assess whether a rent concession that meets the conditions in paragraph 46B of HKFRS 16 is a lease modification. A lessee that makes this practical expedient election shall account for any change in lease payments resulting from the rent concession the same way it would account for the change applying HKFRS 16 if the change were not a lease modification.

The Group applies the practical expedient only to rent concessions occurring as a direct consequence of the COVID-19 pandemic and only if all of the following conditions are met:

- (a) the change in lease payments results in revised consideration for the lease that is substantially the same as, or less than, the consideration for the lease immediately preceding the change;
- (b) any reduction in lease payments affects only payment originally due on or before 30 June 2021; and
- (c) there is no substantive change to other terms and conditions of the lease.

### **Leases** *(Continued)*

#### **Leases (prior to 1 April 2019)**

Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee. All other leases are classified as operating leases.

#### **The Group as lessor**

Rental income from operating leases is recognised on a straight-line basis over the term of the relevant lease. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset.

#### **The Group as lessee**

Operating lease payments are recognised as an expense on a straight-line basis over the lease term.

#### **Leasehold land and building**

When the Group makes payments for a property interest which includes both land and building elements, the Group assesses the classification of each element separately based on the assessment as to whether substantially all the risks and rewards incidental to ownership of each element have been transferred to the Group, unless it is clear that both elements are operating leases in which case the entire property is accounted as an operating lease. Specifically, the entire consideration (including any lump-sum upfront payments) are allocated between the leasehold land and the building elements in proportion to the relative fair values of the leasehold interests in the land element and building element at initial recognition.

To the extent the allocation of the relevant payments can be made reliably, interest in leasehold land that is accounted for as an operating lease is presented as "prepaid lease payments" in the consolidated statement of financial position and is amortised over the lease term on a straight-line basis. When the lease payments cannot be allocated reliably between the leasehold land and building elements, the entire property is generally classified as if the leasehold land is under finance lease.

### **Foreign currencies**

In preparing the financial statements of each individual group entity, transactions in currencies other than the functional currency of that entity (foreign currencies) are recognised at the rates of exchanges prevailing on the dates of the transactions. At the end of the reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing at that date. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

Exchange differences arising on the settlement of monetary items, and on the retranslation of monetary items, are recognised in profit or loss in the period in which they arise.

For the purposes of presenting these consolidated financial statements, the assets and liabilities of the Group's foreign operations are translated into presentation currency (i.e. HK\$) using exchange rates prevailing at the end of each reporting period. Income and expense items are translated at the average exchange rates for the period. Exchange differences arising, if any, are recognised in other comprehensive income and accumulated in equity under the heading of exchange reserve (and attributed to non-controlling interests as appropriate).

### **Short-term employee benefits**

Short-term employee benefits are recognised at the undiscounted amount of the benefits expected to be paid as and when employees rendered the services. All short-term employee benefits are recognised as an expense unless another HKFRS requires or permits the inclusion of the benefit in the cost of an asset.

A liability is recognised for benefits accruing to employees (such as wages and salaries, annual leave and sick leave) after deducting any amount already paid.

### **Retirement benefits costs**

Payments to defined contribution retirement benefit plans and state-managed retirement benefit scheme are recognised as an expense when employees have rendered services entitling them to the contributions.

### **Share-based payment arrangements**

#### ***Equity-settled share-based payment transactions***

##### *Share options granted to employees*

Equity-settled share-based payments to employees and others providing similar services are measured at the fair value of the equity instruments at the grant date. Details regarding the determination of the fair value of equity-settled share-based transactions are set out in Note 28 to the Group's consolidated financial statements.

The fair value of the equity-settled share-based payments determined at the grant date without taking into consideration all non-market vesting conditions is expensed on a straight-line basis over the vesting period, based on the Group's estimate of equity instruments that will eventually vest, with a corresponding increase in equity (share options reserve). At the end of each reporting period, the Group revises its estimate of the number of options expected to vest based on assessment of all relevant non-market vesting conditions. The impact of the revision of the original estimates, if any, is recognised in profit or loss such that the cumulative expense reflects the revised estimate, with a corresponding adjustment to the share options reserve. For share options that vest immediately at the date of grant, the fair value of the share options granted is expensed immediately to profit or loss.

When share options are exercised, the amount previously recognised in share options reserve will be transferred to share premium. When the share options are forfeited after the vesting date or are still not exercised at the expiry date, the amount previously recognised in share options reserve will be transferred to retained profits.

### Taxation

Income tax expense represents the sum of the tax currently payable and deferred tax.

The tax currently payable is based on taxable profit for the year. Taxable profit differs from 'loss/profit before tax' as reported in the consolidated statement of profit or loss and other comprehensive income because of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The Group's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the consolidated financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary difference to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised. Such deferred assets and liabilities are not recognised if the temporary difference arises from goodwill or from the initial recognition (other than business combination) of other assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit. In addition, deferred tax liabilities are not recognised if the temporary difference arises from the initial recognition of goodwill.

Deferred tax liabilities are recognised for taxable temporary differences arising on investments in subsidiaries, except where the Group is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred tax assets arising from deductible temporary differences associated with such investments and interests are only recognised to the extent that it is probable that there will be sufficient taxable profits against which to utilise the benefits of the temporary differences and they are expected to reverse in the foreseeable future.

Deferred tax liabilities are measured at the tax rates that are expected to apply in the period in which the liability is settled, based on tax rate (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax liabilities reflects the tax consequences that would follow from the manner in which the Group expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

Current and deferred tax are recognised in profit or loss, except when it relates to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively. Where current tax or deferred tax arises from the initial accounting for a business combination, the tax effect is included in the accounting for the business combination.

### Inventories

Inventories are stated at the lower of cost and net realisable value. Cost of inventories are determined on a weighted average method. Net realisable value represents the estimated selling price for inventories less all estimated costs of completion and costs necessary to make the sale.

### **Provisions**

Provisions are recognised when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that the Group will be required to settle that obligation, and a reliable estimate can be made of the amount of the obligation.

Provisions are measured at the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. When a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows (where the effect of the time value of money is material).

### **Financial instruments**

Financial assets and financial liabilities are recognised on the consolidated statements of financial position when a group entity becomes a party to the contractual provisions of the instrument. All regular way purchases or sales of financial assets are recognised and derecognised on a trade date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the market place.

Financial assets and financial liabilities are initially measured at fair value, except for trade receivables arising from contracts with customers which are initially measured in accordance with HKFRS 15. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition.

The effective interest method is a method of calculating the amortised cost of a financial asset or financial liability and of allocating interest income and interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts and payments (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial asset or financial liability, or, where appropriate, a shorter period, to the net carrying amount on initial recognition.

### ***Financial assets***

#### *Classification and subsequent measurement of financial assets*

Financial assets that meet the following conditions are subsequently measured at amortised cost:

- the financial asset is held within a business model whose objective is to hold the financial assets in order to collect contractual cash flows; and
- the contractual terms of the financial asset give rise on a specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

### **Financial instruments** *(Continued)*

#### **Financial assets** *(Continued)*

##### *Classification and subsequent measurement of financial assets (Continued)*

##### Amortised cost and interest income

The amortised cost of a financial asset is the amount at which the financial asset is measured at initial recognition minus the principal repayments, plus the cumulative amortisation using the effective interest method of any difference between that initial amount and the maturity amount, adjusted for any loss allowance.

Interest income is recognised using the effective interest method for financial assets measured subsequently at amortised cost. Interest income is calculated by applying the effective interest rate to the gross carrying amount of a financial asset, except for financial assets that have subsequently become credit-impaired (see below). For financial assets that have subsequently become credit-impaired, interest income is recognised by applying the effective interest rate to the amortised cost of the financial asset (i.e. the gross carrying amount after deducting the impairment). If, in subsequent reporting periods, the credit risk on the credit-impaired financial instrument improves so that the financial asset is no longer credit-impaired, interest income is recognised by applying the effective interest rate to the gross carrying amount of the financial asset.

##### *Impairment of financial assets*

The Group recognises a loss allowance for expected credit losses ("**ECL**") on financial assets which are subject to impairment under HKFRS 9 (including rental deposits, trade receivables, other receivable and deposits, pledged bank deposits and bank balances and cash). The amount of ECL is updated at each reporting date to reflect changes in credit risk since initial recognition.

Lifetime ECL represents the ECL that will result from all possible default events over the expected life of the relevant instrument. In contrast, 12-month ECL ("**12m ECL**") represents the portion of lifetime ECL that is expected to result from default events that are possible within 12 months after the reporting date. Assessment are done based on the Group's historical credit loss experience, adjusted for factors that are specific to the debtors, general economic conditions and an assessment of both the current conditions at the reporting date as well as the forecast of future conditions.

The Group always recognise lifetime ECL for trade receivables. The ECL on these financial assets are assessed individually for debtors with significant balances and/or collectively using a provision matrix with appropriate groupings.

For all other financial instruments, the Group measures the loss allowance equal to 12m ECL, unless when there has a significant increase in credit risk since initial recognition, the Group recognises lifetime ECL. The assessment of whether lifetime ECL should be recognised is based on significant increases in the likelihood or risk of a default occurring since initial recognition.

### **Financial instruments** *(Continued)*

#### **Financial assets** *(Continued)*

##### *Impairment of financial assets (Continued)*

(i) Significant increase in credit risk

In assessing whether the credit risk has increased significantly since initial recognition, the Group compares the risk of a default occurring on the financial instrument as at the reporting date with the risk of a default occurring on the financial instrument as at the date of initial recognition. In making this assessment, the Group considers both quantitative and qualitative information that is reasonable and supportable, including historical experience and forward-looking information that is available without undue cost or effort.

In particular, the following information is taken into account when assessing whether the credit risk has increased significantly:

- an actual or expected significant deterioration in the financial instrument's external (if available) or internal credit rating;
- significant deterioration in external market indicators of credit risk, e.g. a significant increase in the credit spread, the credit default swap prices for the debtor;
- existing or forecast adverse changes in business, financial or economic conditions that are expected to cause a significant decrease in debtor's ability to meet its debt obligations;
- an actual or expected significant deterioration in the operating results of the debtor; and
- an actual or expected significant adverse change in the regulatory, economic, or technological environment of the debtor that results in a significant decrease in the debtor's ability to meet its debt obligations.

Irrespective of the outcome of the above assessment, the Group presumes that the credit risk has increased significantly since initial recognition when contractual payments are more than 30 days past due, unless the Group has reasonable and supportable information that demonstrates otherwise.

Despite the foregoing, the Group assumes that the credit risk on a debt instrument has not increased significantly since initial recognition if the debt instrument is determined to have low credit risk at the reporting date. A debt instrument is determined to have low credit risk if (i) it has a low risk of default; (ii) the borrower has a strong capacity to meet its contractual cash flow obligations in the near term; and (iii) adverse changes in economic and business conditions in the longer term may, but will not necessarily, reduce the ability of the borrower to fulfil its contractual cash flow obligations. The Group considers a debt instrument to have low credit risk when it has an internal or external credit rating of 'investment grade' as per globally understood definitions.

The Group regularly monitors the effectiveness of the criteria used to identify whether there has been a significant increase in credit risk and revises them as appropriate to ensure that the criteria are capable of identifying significant increase in credit risk before the amount becomes past due.

(ii) Definition of default

For internal credit risk management, the Group considers an event of default occurs when information developed internally or obtained from external sources indicates that the debtor is unlikely to pay its creditors, including the Group, in full (without taking into account any collaterals held by the Group).

The Group considers that default has occurred when the financial asset is more than 90 days past due unless the Group has reasonable and supportable information to demonstrate that a more lagging default criterion is more appropriate.

(iii) Credit-impaired financial assets

A financial asset is "credit-impaired" when one or more events that have a detrimental impact on the estimated future cash flows of the financial assets have been occurred. Evidence that a financial asset is credit-impaired includes observable data about the following events:

- Significant financial difficulty of the issuer or the borrower;
- A breach of contract, such as a default or past due event;
- The lender(s) of the borrower, for economic or contractual reasons relating to the borrower's financial difficulty, having granted to the borrower a concession(s) that the lender(s) would not otherwise consider;
- It is becoming probably that the borrower will enter bankruptcy or other financial reorganisation; or
- The disappearance of an active market for that financial asset because of financial difficulties.

(iv) Write-off policy

The Group writes off a financial asset when there is information indicating that the counterparty is in severe financial difficulty and there is no realistic prospect of recovery, e.g. when the counterparty has been placed under liquidation or has entered into bankruptcy proceedings, or in the case of trade receivables, when the amounts are over one year past due, whichever occurs sooner. Financial assets written off may still be subject to enforcement activities under the Group's recovery procedures, taking into account legal advice when appropriate. A write-off constitutes a derecognition event. Any subsequent recoveries made are recognised in profit or loss.

(v) Measurement and recognition of ECL

The measurement of ECL is a function of the probability of default, loss given default (i.e. the magnitude of the loss if there is a default) and the exposure at default. The assessment of the probability of default and loss given default is based on historical data adjusted by forward-looking information. Estimation of ECL reflects an unbiased and probability-weighted amount that is determined with the respective risks of default occurring as the weights.

Generally, the ECL is estimated as the difference between all contractual cash flows that are due to the Group in accordance with the contract and all the cash flows that the Group expects to receive, discounted at the effective interest rate determined at initial recognition.

Where ECL is measured on a collective basis or cater for cases where evidence at the individual instrument level may not yet be available, the financial instruments are grouped on the following basis:

- Nature of financial instruments;
- Past-due status;
- Nature, size and industry of debtors; and
- External credit ratings where available.

The grouping is regularly reviewed by management to ensure the constituents of each group continue to share similar credit risk characteristics.

Interest income is calculated based on the gross carrying amount of the financial asset unless the financial asset is credit impaired, in which case interest income is calculated based on amortised cost of the financial asset.

The Group recognises an impairment gain or loss in profit or loss for all financial instruments by adjusting their carrying amount, with the exception of trade receivables where the corresponding adjustment is recognised through a loss allowance account.

### **Financial instruments** *(Continued)*

#### ***Financial liabilities and equity instruments***

Debt and equity instruments are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

#### *Equity instruments*

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by the group entities are recognised at the proceeds received, net of direct issue costs.

#### *Financial liabilities at amortised cost*

Financial liabilities (including trade payables, other payable, deposit received, amount due to a non-controlling shareholder of a subsidiary and lease liabilities) are subsequently measured at amortised cost using the effective interest method.

#### ***Derecognition***

The Group derecognises a financial asset only when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity.

On derecognition of a financial asset, the difference between the asset's carrying amount and the sum of consideration received and receivable is recognised in profit or loss.

The Group derecognises financial liabilities when, and only when, the Group's obligations are discharged, cancelled or have expired. The difference between the carrying amount of the financial liability derecognised and the consideration paid and payable is recognised in profit or loss.

## 4. KEY SOURCE OF ESTIMATION UNCERTAINTY

The following is the key source of estimation that the management of the Group has made in the process of applying the Group's accounting policies and that have the most significant effect on the amounts recognised in the consolidated financial statements.

The Group offers Prepaid Treatment Packages in relation to Treatment Service to customers as Treatment Service requires multiple sessions to achieve desired results. Upon receipts of a prepayment from customers, the Group recognised contract liabilities in the consolidated statement of financial position for the performance obligation to transfer in the future. These non-refundable prepayments give the customer a right to receive Treatment Service in the future (and oblige the Group to stand ready to provide Treatment Service). However, customers may not exercise all of their contractual rights within the valid service periods for various reasons. Those expected unexercised rights are referred to as "breakage".

The expected unexercised rights on Treatment Service is estimated by management based on historical customer behaviour and usage pattern and is recognised as revenue when the likelihood of the customer exercising its remaining rights become remote. For the year ended 31 March 2020, the Group recognised the expected breakage amount of HK\$466,000 (2019: HK\$175,000) as revenue in the consolidated statement of profit or loss and other comprehensive income.

## 5. REVENUE

## 5. REVENUE *(Continued)*

- (b) Revenue expected to be recognised in the future arising from contracts with customers in existence at the reporting date

As at 31 March 2020, the aggregated amount of the transaction price allocated to the remaining performance obligations under the Group's existing contracts was HK\$31,341,000 (2019: HK\$24,344,000). This amount represents revenue expected to be recognised in the future from contracts for Treatment Service entered into by the customers with the Group. The Group will recognise the expected revenue in future when or as the service is rendered, which is expected to occur over the next 12 to 36 months.

## 6. SEGMENT INFORMATION

The Group's operating activities are attributable to a single operating segment focusing on Consultation Service, Prescription and Dispensing Service and Treatment Service. This operating segment has been identified on the basis of internal management reports prepared in accordance with the Group's accounting policies set out in Note 3. Dr. Kong has been identified as the chief operating decision maker ("CODM"). The CODM reviews the Group's revenue analysis by services and products in order to assess performance and allocation of resources.

Other than revenue analysis, no operating results or other discrete financial information is available for the assessment of performance and allocation of resources. The CODM reviews the results of the Group as a whole to make decisions. Accordingly, other than entity wide information, no analysis of this single operating segment is presented.

### **Geographical information**

The Group's operations are located in Hong Kong. All of the Group's revenue from external customers based on the location of the Group's operations is from Hong Kong.

The geographical locations of the Group's non-current assets are mostly situated in Hong Kong based on physical location of assets.

### **Information about major customers**

During each of the years ended 31 March 2020 and 2019, there was no revenue from any customer who individually contributing over 10% of the total revenue of the Group.

## 12. INCOME TAX EXPENSE

On 21 March 2018, the Hong Kong Legislative Council passed the Inland Revenue (Amendment) (No. 7) Bill 2017 (the "Bill") which introduced the two-tiered profit tax rates regime. The Bill was gazetted on 29 March 2018.

Under the two-tiered profits tax rates regime, the first HK\$2.0 million of profits of qualifying entity will be taxed at 8.25%, and profits above HK\$2.0 million will be taxed at 16.5%. For the years ended 31 March 2020 and 2019, Hong Kong Profits Tax of the qualified entity is calculated in accordance with the two-tiered profits tax rates regime. The profits of group entities not qualifying for the two-tiered profits tax rates regime will continue to be taxed at a flat rate of 16.5%.

## 13. A DISPOSAL GROUP CLASSIFIED AS HELD FOR SALE/DISPOSAL OF A SUBSIDIARY

On 29 January 2019, the Company entered into a provisional sale and purchase agreement (the “**Provisional Agreement**”) with an independent third party (the “**Purchaser**”), pursuant to which the Company has agreed to sell its 100% equity interest in Golden Dickson (HK) Limited (“**Golden Dickson**”) for a consideration of HK\$46,000,000. All the conditions precedent under the Provisional Agreement had been fulfilled and the transaction was completed on 31 May 2019. As at 31 March 2019, the assets and liabilities attributable to Golden Dickson were classified as a disposal group held for sale and presented separately in the consolidated statement of financial position. The rental income from Golden Dickson was included in the Group’s other income (see Note 7).

As at 31 March 2019, the Directors considered the sales proceeds less the directly attributable cost which amounted to HK\$45,268,000 as the fair value less cost of disposal for the disposal of Golden Dickson. An impairment loss of HK\$1,566,000 including property, plant and equipment of HK\$783,000 and investment property of HK\$783,000, which represented the sale proceeds less the carrying amount of the net assets of Golden Dickson as at 31 March 2019, was charged to the consolidated profit or loss.

The major classes of assets and liabilities of Golden Dickson classified as held for sale are as follows:

Beginning of the year	1	1
Bad debt written off against allowance	(1)	–
At the end of the year	–	1

During the years ended 31 March 2020 and 2019, the Group did not provide any allowance in respect of the trade receivables which was past due at the end of the reporting period. Management of the Group considered the related receivables may be impaired due to no settlement after the follow-up actions being taken by the Group to recover the overdue debts and specific allowance is made. In determining the recoverability of a trade receivable, the Group considers that no provision for impairment is necessary in respect of these balances as there has not been a significant change in credit quality and the balances are still considered fully recoverable. Management of the Group believes that no further credit provision is required in excess of the allowance for ECL.

## 28. SHARE-BASED PAYMENT TRANSACTIONS

### Share Option Scheme

The Company adopted a share option scheme (“Share Option Scheme”) on 3 December 2014 to provide incentive and/or to reward eligible persons for their contribution to, and continuing efforts to promote the interest of, the Group. The terms of the Share Option Scheme are in accordance with the provisions of Chapter 23 of the GEM Listing Rules.

The total number of shares in respect of which options may be granted under the Share Option Scheme is not permitted to exceed 10% of the shares of the Company in issue at any point in time, without prior approval from the Company’s shareholders. The number of shares issued and to be issued in respect of which options granted and may be granted to any individual in any one year is not permitted to exceed 1% of the shares of the Company in issue at any point in time, without prior approval from the Company’s shareholders. Options granted to a Director, chief executive or substantial shareholder (or any of their respective associates) of the Company shall not be valid unless it has been approved by the independent non-executive Directors, excluding any independent non-executive Director who is a prospective grantee of the option. Options granted to substantial shareholders or independent non-executive Directors in excess of 0.1% of the Company’s share capital or with a value in excess of HK\$5 million must be approved in advance by the Company’s shareholders.

An offer of grant of an option may be accepted by an eligible person within the date as specified in the offer issued by the Company, being a date not later than 21 days after (i) the date on which the offer was issued, or (ii) the date on which the conditions (if any) for the offer are satisfied, provided that such date shall not be more than ten years after the date of adoption of the Share Option Scheme. A consideration of HK\$1.00 is payable for each acceptance of grant of option(s). Such consideration shall generally not be refundable. Subject to the other provisions of the Share Option Scheme, an option may be exercised in whole or in part by the grantee (or his personal representatives) at any time before the expiry of the period to be determined and notified by the Board to the grantee which in any event shall not be longer than 10 years commencing on the offer date and expiring on the last day of such 10-year period subject to the provisions for early termination as contained in the Share Option Scheme and provided that the Board may determine the minimum period for which the option has to be held or other restrictions before the exercise of the subscription right attaching thereto.

The exercise price is determined by the Directors, and will not be less than the higher of (i) the closing price of the Company’s shares on the date of grant; (ii) the average closing price of the shares for the five business days immediately preceding the date of grant; and (iii) the nominal value of the Company’s share.

A summary of the share options granted under the Share Option Scheme are as follows:

## 28. SHARE-BASED PAYMENT TRANSACTIONS *(Continued)*

### Share Option Scheme *(Continued)*

On 15 August 2018, an aggregate of 4,000,000 share options were granted to certain Directors and certain employees of the Group. The closing price of the shares as stated in the Stock Exchange's daily quotations sheet immediately before the date on which the options are granted (i.e. 14 August 2018) was HK\$0.360. The granted share options are vested over the relevant vesting periods commencing from 15 August 2018 to 14 August 2020.

The estimated fair value of the share options granted on 15 August 2018 was HK\$733,000. The fair value was calculated using the binomial option pricing model.

The inputs into the model were as follows:

	15 August 2018
Closing share price at date of grant	HK\$0.360
Exercise price	HK\$0.433
Option life	4 years
Expected volatility	85.03%
Dividend yield	0.417%
Risk free interest rate	1.962%

The variables and assumptions used in computing the fair value of the share options are based on the Directors' best estimates. Changes in variables and assumptions may result in changes in the fair value of the options. Expected volatility was determined by historical daily volatilities of the Company's share prices as at the valuation date.

During the year ended 31 March 2020, the Group recognised HK\$205,000 (2019: HK\$502,000) as an expense in the consolidated statement of profit or loss and other comprehensive income in relation to share options granted by the Company.

No share options were exercised, cancelled or lapsed during the years ended 31 March 2020 and 2019. As at the date of this report, there were 4,000,000 outstanding share options in aggregate, of which 3,300,000 share options have vested and are issuable for 3,300,000 ordinary shares of the Company under the Share Option Scheme.

## 29. RETIREMENT BENEFITS PLANS

The Group operates a defined contribution scheme, MPF Scheme, for all qualifying employees in Hong Kong. The MPF Scheme was established under the Mandatory Provident Fund Schemes Ordinance in December 2000. The assets of the scheme are held separately from those of the Group, in funds under the control of trustees.

The Group contributes 5% of relevant payroll costs to the scheme, which contribution is matched by employees. The maximum monthly contribution made by the Group is limited to HK\$1,500 per employee, while an employee can contribute more than HK\$1,500 per month if the employee is willing to do so.

For the year ended 31 March 2020, the total cost of HK\$568,000 (2019: HK\$567,000) charged to the consolidated statement of profit or loss and other comprehensive income represented contributions paid or payable to the MPF Scheme by the Group. There was no forfeited contribution throughout the year ended in 31 March 2020 (2019: Nil).

## 32. CAPITAL RISK MANAGEMENT

The Group manages its capital to ensure that entities in the Group will be able to continue as a going concern while maximising the return to shareholders through the optimisation of the debt and equity balance. The Group's overall strategy remains unchanged during the year.

The existing capital structure of the Group consists of equity attributable to owners of the Company, comprising share capital and reserves.

Management of the Group reviews the capital structure on a regular basis. As part of this review, management of the Group considers the cost of capital and the risks associated with each class of capital. Based on recommendations of management of the Group, the Group will balance its overall capital structure through the payment of dividends and new shares issue.

## 33. FINANCIAL INSTRUMENTS *(Continued)*

### Financial risk management objectives and policies *(Continued)*

#### **Market risk**

##### *Foreign currency risk*

Foreign currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate due to changes in foreign exchange rates.

The Group is exposed to foreign currency risk related primarily to cash and cash equivalents that are denominated in a currency other than the functional currency of the operations to which they relate. The currencies giving rise to this risk are primarily Chinese Renminbi ("**RMB**"). The Group does not hold or issue any derivative financial instruments for trading purposes or to hedge against fluctuations in foreign exchange rates.

The following table details the Group's exposure at the end of the reporting period to currency risk arising from recognised monetary assets or liabilities denominated in a currency other than the functional currency of the entity to which they relate.

	<b>2020</b>	2019
	<b>HK\$'000</b>	HK\$'000
Bank balances and cash in RMB	<b>6,764</b>	6,927

As at 31 March 2020, if the HK\$ had weakened/strengthened 10% against the RMB with all other variables held constant, the Group's loss after tax for the year would have been HK\$565,000 (2019: HK\$578,000) lower/higher.

##### *Interest rate risk*

The Group is exposed to cash flow interest rate risk in relation to floating-rate bank balances (see Note 20 for details of these bank balances).

The Group currently does not have any interest rate hedging policy. However, management closely monitors its exposure to interest rate risk as a result of change on market interest rate and will consider hedging changes in market interest rates should the need arise.

Management considers the Group's exposure to cash flow interest rate risk of floating-rate bank balances is not significant, hence no sensitivity analysis is presented for the years ended 31 March 2020 and 2019.

## 33. FINANCIAL INSTRUMENTS *(Continued)*

### **Financial risk management objectives and policies** *(Continued)*

#### ***Credit risk and impairment assessment***

At the end of the reporting period, the Group's maximum exposure to credit risk which will cause a financial loss to the Group due to failure to discharge obligation by the counterparties is arising from the carrying amount of the respective recognised financial assets as stated in the consolidated statement of financial position.

In order to minimise the credit risk, the Group has monitoring procedures to ensure that follow-up action is taken to recover overdue debts. In addition, the Group reviews the credit quality of each individual debt at the end of the reporting periods to ensure that adequate impairment losses are made for irrecoverable amounts. In this regard, the management of the Group considers that the Group's credit risk is significantly reduced. In addition, the Group performs impairment assessment under ECL model upon application of HKFRS 9 Financial Instruments on trade balances individually or based on provision matrix. For trade receivables with gross carrying amount of HK\$372,000 (2019: HK\$699,000), the Group has applied the simplified approach under HKFRS 9 to measure the loss allowance at lifetime ECL. No trade receivables at 31 March 2020 and 2019 is identified as credit-impaired based on historical credit loss experience adjusted by forward-looking estimates without undue cost or effort. The Group considered that the counterparties have a low risk of default and do not have any material past-due amounts and thus did not provide any allowance for ECL during the years ended 31 March 2020 and 2019.

The credit risk of other receivables and deposits and rental deposits are managed through an internal process. The Group also actively monitors the outstanding amounts owed by each debtor and identifies any credit risks in a timely manner in order to reduce the risk of a credit loss. The Group performs impairment assessment under ECL model upon application of HKFRS 9 on these outstanding balance.

For other receivable and deposits and rental deposits with gross carrying amount of HK\$3,262,000 (2019: HK\$3,514,000), the Group measures the loss allowance at 12m ECL. There has been no significant increase in credit risk since initial recognition. The balances are monitored on an ongoing basis and the Group's exposure to ECL is not significant since the Group trades only with recognised and creditworthy third parties.

Where applicable, an impairment analysis on other receivable and deposits and rental deposits is performed at each reporting date by considering the probability of default of comparable companies with published credit ratings, if any. In the situation where no comparable companies with credit ratings can be identified, ECL are estimated by applying a loss rate approach with reference to the historical loss record of the Group. The loss rate is adjusted to reflect the current conditions and forecasts of future economic conditions, as appropriate. As at 31 March 2020 and 2019, the Group has not provided 12m ECL for other receivable and deposits and rental deposits.

The credit risk on liquid funds is limited because the counterparties are banks with high credit-ratings assigned by international credit-rating agencies.

Other than the concentration of credit risk on liquid funds which are deposited with several banks with high credit ratings, the Group does not have any other significant concentration of credit risk, with exposure spread over a number of counterparties.

#### Liquidity risk

In the management of liquidity risk, the Group monitors and maintains a level of cash and cash equivalents deemed adequate by the management to finance the Group's operations and mitigate the effects of fluctuations in cash flows.

The following table details the Group's remaining contractual maturity for its non-derivative financial liabilities. The table has been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the Group can be required to pay.

The table includes both interest and principal cash flows. To the extent that interest flows are floating rate, the undiscounted amount is derived from interest rate at the end of the reporting period.

#### Fair value

The fair values of financial assets and financial liabilities have been determined in accordance with generally accepted pricing models based on discounted cash flow analysis.

Management of the Group considers that the carrying amounts of financial assets and financial liabilities recorded at amortised cost in the consolidated financial statements approximate their fair values.

## 37. EVENTS AFTER THE REPORTING PERIOD

- (a) On 19 March 2020, the Company entered into a share buy-back agreement (the “**Share Buy-back Agreement**”) with Rich Unicorn Holdings Limited, an independent shareholder (the “**Vendor**”), pursuant to which the Vendor has agreed to sell, and the Company has agreed to repurchase for cancellation, a total of 80,000,000 ordinary shares of the Company (the “**Buy-back Shares**”) at the total consideration of HK\$10,000,000, equivalent to HK\$0.125 per share. The Share Buy-back Agreement is conditional upon the satisfaction of the following conditions:
- (a) the Executive Director of the Corporate Finance Division of the Securities and Futures Commission of Hong Kong (the “**Executive Director**”), or any delegate of the Executive Director having granted and not having withdrawn or revoked the approval for the share buy-back transaction and the condition(s) of such approval (if any) having been satisfied;
  - (b) the passing of the resolutions at the extraordinary general meeting to be convened and held by the Company for the purpose of approving, among other things, the Share Buy-back Agreement and the transactions contemplated thereunder by at least three-fourth of the shareholders other than the Vendor (“**Disinterested Shareholders**”) of the votes cast on a poll approving the share buy-back transaction;
  - (c) the Company having complied with the applicable provisions of the Rules Governing the Listing of Securities on GEM of the Stock Exchange, including those under Chapter 20, the disclosure requirements and the requirement to obtain Disinterested Shareholders’ approval in relation to the share buy-back transaction;
  - (d) representations and warranties given by the Vendor and the Company under the Share Buy-back Agreement being true, correct and complete when made and remaining true, correct and complete and not misleading as at the completion date of the share buy-back transaction; and
  - (e) (where required) the obtaining of all necessary approvals and consents from any government or regulatory authority or any person and the completion of all necessary filings with any government or regulatory authority required for the entering into of the Share Buy-back Agreement and/or the performance of their obligations hereunder by the Vendor and the Company.

As at 31 March 2020, none of the above conditions has been fulfilled.

All conditions under the Share Buy-back Agreement have been fulfilled and completion took place on 9 June 2020. The Buy-back Shares have been cancelled on 16 June 2020.

- (b) On 15 May 2020, the Group entered into a sale and purchase agreement with an independent third party, pursuant to which the Group has agreed to sell its 51% equity interest in Success Guide Limited, the holding company of MS Medicspa Limited which is engaged in the provision of beauty spa services, and the independent third party has agreed to acquire the same for a consideration of HK\$60,000. The transaction was completed on 1 June 2020.
- (c) Due to the outbreak of the COVID-19 virus in Hong Kong, as a measure to control the spread of the COVID-19 virus, the Hong Kong government announced and implemented on 8 April 2020 restrictions on public gatherings and ordered entertainment venue closures, as well as suspending the operation of beauty parlours for 28 days from 10 April to 7 May 2020. Despite the fact that the Group’s business mainly focuses on medical procedures and medical treatments performed by doctor-operated clinics, certain non-medical beautifying services were affected. It is expected that the business environment will be challenging in the near term until the spread of the COVID-19 virus is effectively contained.
