INTERIM REPORT

**2016/17**

## CHARACTERISTICS OF THE GROWTH ENTERPRISE MARKET (“GEM”) OF THE STOCK EXCHANGE OF HONG KONG LIMITED (THE “STOCK EXCHANGE”)

GEM has been positioned as a market designed to accommodate companies to which a higher investment risk may be attached than other companies listed on the Stock Exchange. Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration. The greater risk profile and other characteristics of GEM mean that it is a market more suited to professional and other sophisticated investors.

Given the emerging nature of companies listed on GEM, there is a risk that securities traded on GEM may be more susceptible to high market volatility than securities traded on the Main Board of the Stock Exchange and no assurance is given that there will be a liquid market in the securities traded on GEM.

*Hong Kong Exchanges and Clearing Limited and the Stock Exchange take no responsibility for the contents of this report, make no representation as to its accuracy or completeness and expressly disclaim any liability whatsoever for any loss howsoever arising from or in reliance upon the whole or any part of the contents of this report.*

*This report, for which the directors (the “**Directors**”) of Medicskin Holdings Limited (the “**Company**”) collectively and individually accept full responsibility, includes particulars given in compliance with the Rules Governing the Listing of Securities on the GEM of the Stock Exchange (the “**GEM Listing Rules**”) for the purpose of giving information with regard to the Company. The Directors, having made all reasonable enquiries, confirm that to the best of their knowledge and belief the information contained in this report is accurate and complete in all material respects and not misleading or deceptive, and there are no other matters the omission of which would make any statement herein or this report misleading.*

## MANAGEMENT DISCUSSION AND ANALYSIS

### BUSINESS REVIEW

The Group is a medical skin care group operating two medical skin care centres (“**Medicskin Centres**”) in Hong Kong that primarily focus on the treatment of skin diseases and problems and/or the improvement of appearance of clients. The Group provides services to clients for the treatment of, inter alia, skin diseases and problems such as acne, pigmentation, rosacea, dermatitis, eczema and warts, as well as for the improvement of appearance through, inter alia, skin rejuvenation, facial sculpturing and body contouring treatments, treatments of acne scars and enlarged pores, removal of undesirable naevi, and hair removal.

During the six months ended 30 September 2016, the revenue derived from the Consultation Service, Prescription and Dispensing Service and Treatment Service accounted for approximately 7.2%, 42.6%, and 50.2% of the total revenue of the Group respectively. For the six months ended 30 September 2016, the revenue of the Group decreased by approximately HK\$1.4 million, or 4.6%, when compared to the six months ended 30 September 2015, to approximately HK\$28.8 million. The decrease in revenue was primarily attributable to the decrease in general consumer sentiment due to the slowdown of economic growth in Hong Kong, the People’s Republic of China (the “**PRC**”) and the global economy, and the increasingly intensified competition in the industry.

In May 2016, the Group’s Medicskin Centre in Central (“**Central Medicskin Centre**”) was relocated from Tak Shing House to New World Tower II, which occupies the whole 21st floor of New World Tower II, with around 5,000 square feet in gross floor area. The new Central Medicskin Centre with elegant décor provides better facilities and a more comfortable environment to our clients and enhances their experience. We believe this in turn will enhance clients’ satisfaction and in long term bring additional revenue to the Group.

On 29 September 2016, a subscription agreement was entered into between the Company and Rich Unicorn, pursuant to which the Company has conditionally agreed to allot and issue, and Rich Unicorn has conditionally agreed to subscribe for, 80,000,000 subscription shares at the subscription price of HK\$0.648 per subscription share. Rich Unicorn is beneficially owned by Fullshare. The completion of the Subscription took place on 25 October 2016. The gross proceeds from the Subscription are approximately HK\$51,840,000 and the net proceeds from the Subscription, after deduction of related expenses of approximately HK\$1,900,000, are estimated to be approximately HK\$49,940,000. The Company intends to use the majority of the net proceeds from the Subscription of approximately HK\$40,000,000 for acquisition of premises and approximately HK\$1,600,000 for initial set-up costs in relation to a new medical skin care centre to be established in a prime district in Hong Kong in the second quarter of 2017. Due to the continued increase in rent of office buildings in prime locations in Hong Kong, the Company considers that if there is appropriate property in the market and the Company has sufficient financial resources, it will be in the long term interests of the Company and its shareholders to have its medical skin care centres operating in self-owned properties. The Board considers that, while broadening the shareholder base of the Company, the Subscription represents a valuable opportunity for the Company to bring in a renowned investor with strong financial resources and extensive business network, which in turn would bring strategic value to the Group. The Board also believes that Fullshare becoming a shareholder of the Company will provide synergy to the Group in the development of its business in the medical skin care industry.

## **OUTLOOK**

It is expected that since Hong Kong, the PRC and the global economy will continue to fluctuate in the year to come and there will be increasingly fierce competition in the medical skin care industry, the Group's business will more or less be affected. Nevertheless, with the higher growth rate of female population in Hong Kong, continuous aging trend in the population of Hong Kong and growing emphasis on a person's physical appearance in the society, medical skin care services is becoming more commonplace and it is expected that more people will seek skin care services for improvement of their appearance in pursuit of beauty and to improve their self-esteem, thereby supporting growth of the medical skin care industry in Hong Kong. Continuing technological innovation and improvement of treatment device by manufacturers also offer growth opportunities within the industry for all players.

The government of Hong Kong has been considering to tighten up the regulation(s) governing beauty industry and is currently reviewing the existing legislation(s) with a view to enacting laws or amending the existing legislation to distinguish between medical treatment and beauty treatment and to implement regulatory controls over certain cosmetic procedures in order to protect the interests and safety of the public. Such review or amendment of the existing legislation may introduce a change in compliance standards in connection with delivery of treatments, and may ultimately bring higher level of confidence to customers, enhance the level of safety in the industry and increase the total spending in the market.

Online consumption is a trend in the digital era and influences the local retail market. Traditional retail businesses are losing market share as people from all over the world are increasingly purchasing goods over the Internet. The Group will continue to explore and launch new skincare products to enhance the quality, effectiveness and variety of its products and explore different sales channel and platform for sale of its skincare products to enhance its competitiveness.

The Group will continue to use its best endeavors to provide the highest quality medical skin care services and products to its clients, and to strengthen its position so as to grow its brand and business.
